

Figure 21. Estimated pumpage from the sandstone aquifer by 1990.

## **EXPLANATION**

Average daily pumpage, in millon gallons per day

## 1.00

Combined pumpage of wells wherever two or more wells are assigned to pump from the same finite-difference grid element

Water utility well (existing or proposed)

Industrial or public institution well

## (two wells)

Number of wells represented by well symbol, if more than one well
