

Grid from U.S. Geological Survey

Aeromagnetic survey flown and compiled by the U.S. Geological Survey. Flown at 10,000 feet barometric elevation, 1970.

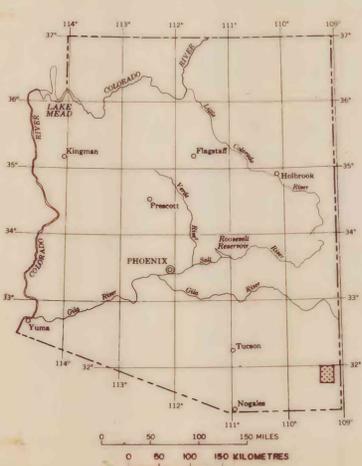

EXPLANATION

Magnetic contours
Showing total intensity magnetic field of the earth in gammas relative to arbitrary datum. Hachured to indicate closed areas of lower magnetic intensity.
Contour interval is 20 gammas.

Location of measured maximum or minimum intensity within closed high or closed low

Flight path
Showing location and spacing of data

Note: Central part of this map published with geologic interpretation in U.S. Geological Survey Bull. 1385-A, Mineral resources of the Chiricahua Wilderness Area, Cochise County, Ariz. (1973).
