

UNITED STATES DEPARTMENT OF THE INTERIOR

GEOLOGICAL SURVEY

REPORTS OF THE ALASKA DIVISION OF GEOLOGICAL AND GEOPHYSICAL

SURVEYS AND PREDECESSOR AGENCIES, 1913-1973,

INDEXED BY QUADRANGLE

By

Edward H. Cobb

Open-file report 74-209

1974

This report is preliminary
and has not been edited or
reviewed for conformity with
Geological Survey standards

NOTE

NOTE

NOTE

Since this index was prepared 18 open-file reports of the Alaska Division of Geological and Geophysical Surveys have been withdrawn, consolidated, revised, or assigned different numbers. References to these reports should be deleted from this index. The report numbers are: 18, 19, 20, 21, 23, 24, 25, 26, 27, 28, 29, 32, 33, 34, 35, 37, 39, and 40. They are listed under the following quadrangles:

Afognak	Marshall
Ambler River	McCarthy
Anchorage	Medfra
Baird Inlet	Mt. Fairweather
Bendeleben	Mt. St. Elias
Bering Glacier	Nabesna
Bethel	Nunivak Island
Big Delta	Port Moller
Cape Mendenhall	Ruby
Charley River	St. Michael
Chignik	Sitka
Cordova	Survey Pass
Eagle	Sutwik Island
Hooper Bay	Talkeetna
Icy Bay	Talkeetna Mountains
Iliamna	Trinity Islands
Kaguyak	Tyonek
Karluk	Ugashik
Kodiak	Valdez
Kwiguk	Yakutat

Reports of the Alaska Division of Geological and Geophysical
Surveys and predecessor agencies, 1913-1973,
indexed by quadrangle

By Edward H. Cobb

Introduction

Reports and maps published or placed in open files by the Alaska Division of Geological and Geophysical Surveys (an agency of the State of Alaska Department of Natural Resources) and its predecessor State and Territorial agencies before January 1, 1974, are listed by the quadrangles (scale 1:250,000) into which Alaska has been divided for topographic mapping (p. 2). This index does not include reports that consider only administrative matters, industrial safety, or laboratory techniques.

Bibliographies, reports that deal with Alaska as a whole or with areas that can not be identified with any specific quadrangle, and reports on offshore areas not within quadrangle boundaries are listed under ALASKA - GENERAL and appear before the alphabetically arranged quadrangle listings.

This index is the fourth in a series of specialized lists, arranged by quadrangle, that will facilitate library research on the geology and mineral resources of Alaska. Previously released in the series are:

Cobb, E. H., 1974, Geological Survey open-file reports on Alaska indexed by quadrangle: U.S. Geol. Survey open-file report 74-7, 116 p.

_____ 1974, Selected U.S. Bureau of Mines reports on Alaska indexed by quadrangle: U.S. Geol. Survey open-file report 74-52, 40 p.

_____ 1974, Geological Survey maps (other than topographic) of Alaska indexed by quadrangle: U.S. Geol. Survey open-file report 74-84, 38 p.

ALASKA - GENERAL.
