

Table 1.--Records of selected wells in and near Grand Teton National Park.

Well number: Described in text in section on well and station numbers.

Method of lift: C, centrifugal; J, jet; N, none; P, piston; S, submersible; T, turbine.

Use of well: C, commercial; D, domestic; I, irrigation; P, public supply; U, unused.

Geologic source (listed alphabetically): Mm, Madison Limestone, Qal, Alluvium and glacial-outwash deposits; Qg, glacial-moraine deposits;

Ql, lacustrine deposits; QTb, Bivouac Formation; Tt, Teewinot Formation; U, unknown.

Remarks: C, chemical analysis shown in table 6; L, log of well shown in table 2; LN, log of nearby well shown in table 2; W, additional

water levels shown in table 5; Y, yield in gallons per minute.

Well no.	Owner or name	Year drilled	Depth (feet)	Diameter (inches)	Producing interval (feet)	Method of lift	Use of well	Altitude of land surface (feet)	Water level (feet below land surface)	Date of water-level measurement	Geologic source of water	Remarks
