

EXPLANATION

-  Outwash
(Primarily sand and gravel) (Section only)
-  Buried sand (section only)
-  Till (Section only)
-  Area where outwash thickness is less than 10 feet (3 metres)

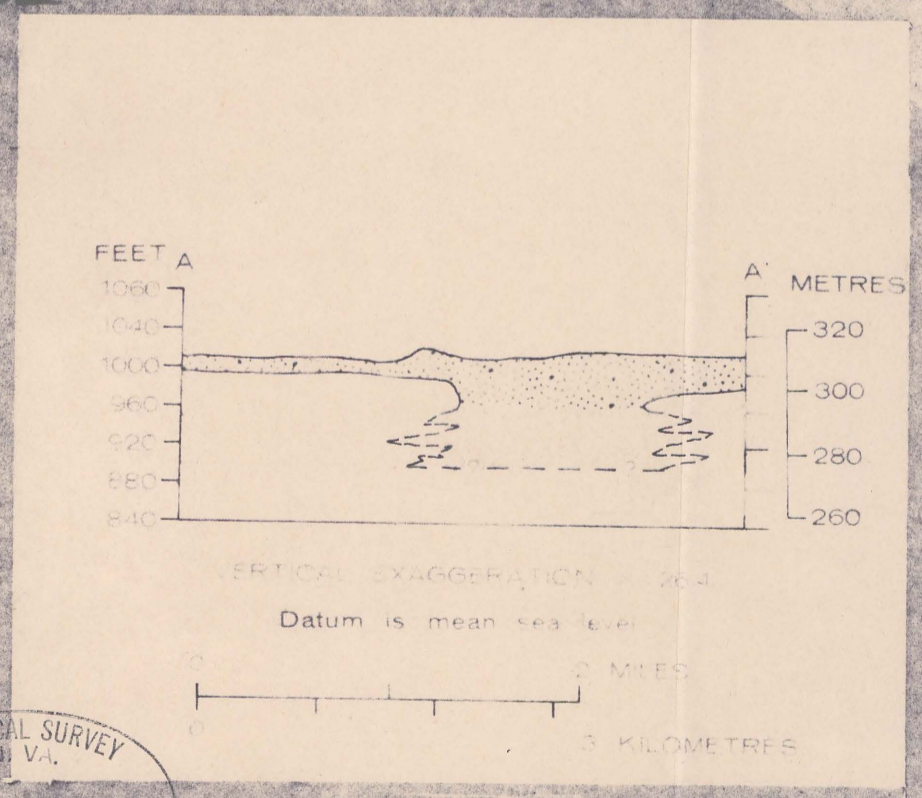

— 980 — Structure contour— shows altitude of top of till underlying surficial outwash. [Shown only where outwash thickness is greater than 10 feet (3 metres)] Dashed where approximately located. Datum is mean sea level. Contour interval 10 feet (3 metres).

..... Boundary of area where till has been eroded and surficial outwash is connected to buried sand.

Boundary of study area.
