

THIS REPORT IS PRELIMINARY AND HAS NOT BEEN EDITED OR REVIEWED FOR CONFORMITY WITH GEOLOGICAL SURVEY STANDARDS OR NOMENCLATURE.

Figure 3--Index map showing location of bottom samples and cores.

Numbers are sample and core stations referred to in text and on other illustrations. Throughout the area, samples other than cores represent the upper four inches of bottom sediment. Open circle is position of diver core; circle with cross is position of gravity core; large circle with inner circle is position of Corps of Engineers bore hole.
