HERNDON QUADRANGLE
VIRGINIA
7.5 MINUTE SERIES (TOPOGRAPHIC)

Maped, edited, and published by the Geological Survey
Control by USGS and USGS
Topography by photogrammetry or original aerial photographs
taken 1949. First checked 1951. Revised 1955 and
photorevised 1964. Third checked 1968.
Photorevised by USGS. Faults from aerial photos
10,000 foot and larger on vertical coordinate system north zone
1000-meter intervals. The contour interval is 20 feet.
Zone 18 shown in blue.
Five red dashed lines indicate mapped lines and half lines which
generally follow aerial photographs. The information is contained
in the map. The map is published by the Geological Survey
taken 1971. The information is contained in the map.
Purple ink is used for the map.
