

WELL RECORDS

EXPLANATION

Well number: The first three characters indicate the township, the next two the range, and the next two the section. The three letters following the section number indicate the quarter section, the quarter-quarter section, and the quarter-quarter-quarter section (each section and subsequent subdivision is divided into four quadrants designated A, B, C, and D in a counterclockwise direction beginning in the northeast quadrant). A number appearing after the third letter indicates that more than one well is located within the quarter-quarter-quarter section.

Type of well: Dn, driven; Dr, drilled

Use of water: D, domestic; P, public supply; I, lawn irrigation; F, fire protection; In, light industry; N, none

Depth to water below land surface: R, reported

Remarks: C74 and C75, partial chemical analysis of water available for the indicated year; CC75, chemical analysis for common constituents in water available, 1975
