GUIDE TO THE AVAILABILITY OF HYDROLOGIC DATA  
GREATER PITTSBURGH REGION, PENNSYLVANIA

**FORMER DATA-COLLECTION SITES**

A summary of information (through 1957) on inactive climatological data-collection sites may be found in U.S. Weather Bureau publication "Substation History--Pennsylvania."

A listing of inactive U.S. Geological Survey water-measuring and sampling locations may be found in a folder titled "Water-Resources Investigations in the Upper Ohio River Basin" published by the Pennsylvania Department of Forests and Waters as Technical Bulletin No. 1 (Reese and Coll, 1970).

**OTHER DATA-COLLECTION SITES**

Not shown here are active water-quality sampling networks operated by the Allegheny County Health Department and by the Butler County Planning Commission. Sampling programs are conducted also by the Pennsylvania Fish Commission and by the Allegheny County Works Department, Division of Tests.
