AEROMAGNETIC MAP OF AN AREA NORTH OF ABIQUIU, NEW MEXICO

BY

U. S. GEOLOGICAL SURVEY

1976

This map is preliminary
and has not been edited
or reviewed for conformity
to Geological Survey standards.

EXPLANATION

Magnetic contours

Showing total intensity magnetic field
of the earth in gammas relative to
arbitrary datum. Hachured to indicate
closed areas of lower magnetic intensity.
This is a residual aeromagnetic map
with the International Geomagnetic
Reference Field for 1965 (updated to 11/75)
removed and 1,000 gammas added. Contour
intervals 20 and 100 gammas.

Location of measured maximum or minimum
intensity within closed high or closed
low

Flight path
Showing location and spacing of data

Aeromagnetic survey flown and compiled by
U. S. Geological Survey. Flown at 11,000
feet barometric elevation, 1975.
