EXPLANATION

Flight path  
Showing location and spacing of data

Contours show changes in elevation of natural ground according to vertical scale of map. In this contour interval, contours are spaced at 20-foot intervals. Contours are shown as solid lines. Contours are shown as dashed lines where they are obscured by other features. Contour interval is 20 feet.

This map is preliminary and has not been subject to the usual review for accuracy by the U. S. Geological Survey.
