Preliminary Geologic and Mineral Resource Maps, (excluding petroleum)
Arctic National Wildlife Range, Alaska
by W.P. Brosge and H.N. Reiser, 1976
Sheet 2: Stream sediment sample localities, and distribution of copper and tin in stream sediments.

Stream sediment data compiled from Sabol (665 samples), Brosge and Reiser (460 samples), and from unpublished data by S. G. Morris for the Us Geological Survey, 1972. See Figure 3 for reference list.

The maps are preliminary and have not been reviewed by the United States Geological Survey. The Department of the Interior, United States Geological Survey.
