

EXPLANATION

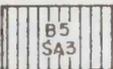

4028 (C) Altitude of water level (feet)

Well

Equipped with turbine pump

Well

Domestic, stock or unused

Boles and San Andres well field

Areas owned and operated by HAFB. Letter and number identifies wells in the field

Water rights owned by HAFB

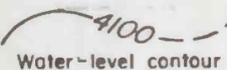

Douglass well field area

Leased, maintained and operated by HAFB. Letter and number identifies wells in the field

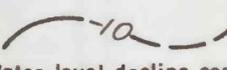

Holloman jurisdictional area

Transfer of water rights to HAFB pending

Water-level contour

Contour interval is 25 feet. Dashed where inferred. Measurement made in February 1966 Datum is mean sea level

Water-level-decline contour

Contour interval is 5 feet. Dashed where inferred. Measurements made in the period 1953-55 and in January 1966

Base from U.S.G.S. Topographic maps

R. 9 E.

R. 10 E.

W.C. Bolland, 1966
