

Figure 4.--Natural gamma log of drill-hole DM-D21

Hole location: 900 ft FWL, 2,150 ft FNL,
sec. 34, T. 16 N., R. 90 W.,
6th P.M., Carbon County, Wyo.

Logged depth: 395 ft

Detector type: scintillation

Collar elevation: 7,610 ft

Time constant: 4 sec

Date drilled: Sept. 3-4, 1976

Logging speed: 15 ft/min

Drill-bit size: 5-1/8 in

Calibration: See log

Drilling medium: air and water

Logged by: R. A. McCullough

Total depth: 410 ft

Logger unit: Well Reconnaissance W-236265

Water level: 297.7 ft

Date logged: Sept. 10, 1976
