

Figure 40.--Natural gamma log of drill-hole BH-D3; logged through drill stem

Hole location: 350 ft FEL, 1,850 ft FNL,
sec. 3, T. 14 N., R. 90 W.,
6th P.M., Carbon County, Wyo.

Logged depth: 465 ft

Detector type: Scintillation

Collar elevation: 7,500 ft

Time constant: 1 sec

Date drilled: Aug. 8-11, 1976

Logging speed: 24 ft/min

Drill-bit size: 5-1/8 in

Calibration: See log

Drilling medium: Air and water

Logged by: L. M. MacCary and Joe Sena

Total depth: 490 ft

Logger unit: Borehole Geophysics No. 1

Water level: 141 ft

Date logged: Aug. 10, 1976
