Figure 48.—Natural gamma log of drill-hole RI-35

Hole location: 600 ft SSW, 3,450 ft WNW,
sec. 16, T. 16 N., R. 90 W.,
1st P.M., Carbon County, Wyo.

Casing elevation: 7,580 ft

Date drilled: Aug. 4-9, 1976

Drill-bit size: 5-1/8 in

Drilling medium: Air and water

Total depth: 470 ft

Water level: 160 ft

Logged depth: 442 ft

Detector type: Cesium-137

Time constant: 3 sec

Logging speed: 24 ft/min

Calibration: See log

Logged by: L. M. MacGy and G. E. Leon

Logger unit: Unocal Geophysics No. 1

Date logged: Aug. 7, 1976
