

Figure 55.—Natural gamma log of drill-hole B-D17; logged through drill stem

Hole location: 1,050 ft FWL, 1,950 ft FSL,  
sec. 3, T. 14 N., R. 90 W.,  
6th P.M., Carbon County, Wyo.

Logged depth: 566 ft

Detector type: Scintillation

Collar elevation: 7,220 ft

Time constant: 4 sec

Date drilled: Aug. 26-31, 1976

Logging speed: 17 ft/min

Drill-bit size: 5-1/8 in

Calibration: See log

Drilling medium: Air and water

Logged by: R. A. McCullough

Total depth: 650 ft

Logger unit: Well Reconnaissance W-236265

Water level: 36.5 ft

Date logged: Aug. 30, 1976
