no. 77-258

Base map from U.S. Naval Oceanographic
Office, Washington, D.C.
Lambert Conformal Conic Projection

SCALE 1:62,500

Aeromagnetic survey flown at 1,737 m (5,700 ft)
average barometric elevation in 1975
Compiled by U.S. Naval Oceanographic Office,
Washington, D.C., 1976

FIGURE 7.--AEROMAGNETIC MAP OF LAKE LUCERO 15-MINUTE QUADRANGLE, NEW MEXICO
1977

Index map of New Mexico showing areas
of twelve aeromagnetic maps of the
Tularosa valley area. Area of this
map is shaded

This map is preliminary and has not been
edited or reviewed for conformity
to Geological Survey standards

EXPLANATION

Magnetic contours

Showing residual magnetic anomalies in total magnetic intensity
relative to the reference field of the World Chart of the
Earth's Magnetic Field published by the Defense Mapping
Agency, Washington, D.C. Hashured to indicate areas of
lower magnetic intensity. Contour intervals are 10, 50,
and 100 gammas

Flight paths are indicated by ticks on magnetic contours
along the path

Location of magnetic high or low value along flight
path is indicated by a dot
