

**EXPLANATION**

Fault, dotted where concealed. U, upthrown side  
 D, downthrown side.

Isopach of thickness of coal in Dietz coal bed.  
 Contour interval is 1 foot.

Isopach of interval between the Dietz and Anderson  
 coal beds.

Drill hole with data on Dietz coal bed.

Area where Dietz is under less than 200 feet of  
 overburden.

Note: 1 foot = 0.3 meter

Base from U.S. Geological  
 Survey, 1972

Plate 3 - Coal thickness, overburden thickness, and distance below Anderson  
 coal bed, of the Dietz coal bed in Hanging Woman Creek Study Area.
