OPEN FILE REPORT 78-654  
PLATE 43 OF 44

**EXPLANATION**

 NON-FEDERAL COAL LAND--Land for which the Federal Government does not own the coal rights.

RB  
= (Measured resources)  
= (Indicated resources)  
- (Inferred resources)

IDENTIFIED NON-STRIPPABLE COAL RESOURCES--Showing totals for Reserve Base (RB), in millions of short tons, for each section or part(s) of section of Federal coal land outside the stripping-limit line. Dash indicates no resources in that category.

 BOUNDARY OF RESERVE BASE COAL--Drawn along the 5-foot (1.5 m) coal isopach and the 1,000-foot overburden isopach. Arrows point toward area of Reserve Base coal.

Recovery factors have not been established for underground development of coal in this quadrangle. Therefore, Reserves (R) were not calculated for the coal bed in areas outside the stripping-limit line where the overburden thickness exceeds 200 feet (61 m).

To convert short tons to metric tons, multiply by 0.907.

Base from U.S. Geological Survey, 1972

Compiled in 1977
