This is a map with geological features and annotations. The map is titled "Coal Resource Occurrence and Coal Development Potential Maps of the Bear Creek School Quadrangle, Powder River County, Montana." It includes a legend and various symbols indicating different geological formations and features. However, the text is not legible due to the nature of the map and the symbols used. The map is part of a report titled "Open File Report 79-106: Plate 13 of 59." The report was produced by the United States Geological Survey and includes data on coal resources and development potential.
