

EXPLANATION

ISOPACHS OF THE FRUITLAND I COAL BED - Showing thickness, in feet. Isopach interval 5 feet (1.5 meters). Isopachs dashed where inferred.

O 3
DRILL HOLE - Showing thickness of the Fruitland I coal bed, in feet.

▲ 1.5
TRACE OF COAL BED OUTCROP - Showing symbol of some of coal bed, and coal thickness, in feet, measured at triangle. Arrow points to coal-bearing area. Dashed line indicates inferred outcrop. Trace of coal bed outcrop modified (from original data source) to fit modern topographic map.

To convert feet to meters, multiply feet by 0.3048.

Fruitland coal beds telescoped as a single bed on this map are equivalent in stratigraphic position but may not be continuous.
