COAL BED SYMBOLS AND NAMES

↑  
TRACE OF COAL BED OUTCROP—Showing coal thickness in feet. Arrow points toward the coal-bearing area.

To convert feet to meters multiply feet by 0.3048.

This outcrop mapping is derived and enlarged from a 1:62,500 scale publication from Sharp and Gibbons (1964, Plate 1). Numerous irregularities in outcrop elevations and the areal geology-topographic map relationship emphasize that this map presents a generalized configuration of the coal bed outcrop. Horizontal accuracy of outcrop location is estimated at ± 1000 feet (305 m).
