

EXPLANATION

5
6

ISOPACHS - Showing thickness of coal, in feet. Long dashed where inferred. Isopach interval 1 foot.

○ 5.4

DRILL HOLE - Showing thickness of coal, in feet.

▲ 7.0

POINT OF MEASUREMENT - Showing altitude of top of coal bed, in feet. Includes all points of measurement other than drill holes.

△ 4.5

PROJECTED POINT OF MEASUREMENT - Showing thickness of coal bed, in feet. Because of an interval of no record in the measured section, exact location and altitude of coal bed is unknown and point has been projected to the outcrop of the zone.

7.8/0.9

INTERBEDDED COAL AND ROCK - Showing total coal thickness/total rock thickness.

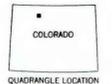

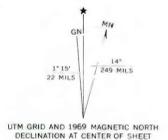

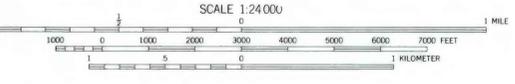

LG2 - Lower Coal Group, zone 2

COAL BED SYMBOL AND NAME - Coal bed identified by bracketed numbers is not formally named, but is numbered for identification purposes in this quadrangle only.

▲ LG2

TRACE OF COAL ZONE OUTCROP - Showing symbol of name of coal zone as listed above. Arrow points toward coal-bearing area. Short dashed where inferred by present authors.

To convert feet to meters, multiply feet by 0.3048.
