NOTES

Within U.S. Army Map I-9190, Landonville, 7.5 in.

The above map is intended as a general guide for locating and identifying landslides
in the area. It is not intended for detailed engineering
work or for use as a road or navigation map.

The map shows the location of landslides and
related features, and indicates the nature of the
landslide activity. It is based on aerial photography
and field studies.

The map was prepared by the U.S. Geological
Survey and the U.S. Army Corps of Engineers.

The map is available at the U.S. Geological
Survey, Washington, D.C.

This map is not for use as a road or navigation
map. It is designed for use by professionals and
technical personnel.
