Figure 3.—Natural gamma log of drill-holes B-011

Well location: 140°40'W., 62°50'N., sec. 17, T. 7, R. 13 W., Caddo County, Oklahoma

Casing depth: 600 ft

Boob drill-depth: July 1-24, 1936

Drilling fluids: diesel and water

Depth determined by drillers: 375 ft

Water level: 380 ft

Logged depth: 340 ft

Cement upper cementation

Flow comment: clean

Logging speed: 17 ft/min

Calibrations: one log

Logged by: J. A. Short

Logged until: Courtest-Cheney 1950

Data logged: July 14, 1936
