

Figure 69.--Natural gamma log no. 2 of drill-hole B-D22

Hole location: 1,000 FNL, 2,000 FEL, sec. 34,
T. 15 N., R. 90 W., 6th P.M.,
Carbon County, Wyoming

Detector type: scintillation
Time constant: 4 sec

Collar elevation: 7,485 ft

Logging speed: 15 ft/min

Date drilled: September 1, 1977

Calibration: see log

Open-hole diameter: 4-3/4 in.

Logged by: R. McCullough

Casing: none

Logger unit: well reconnaissance W-236265

Drilling fluids: air, 0-180 ft; air and water,
180-500 ft

Date logged: October 25, 1977

Depth determined by driller: 500 ft

Water level: 242 ft?

Logged depth: 482 ft
