

Figure 12.--Gamma-gamma log of drill-hole KB-D3

Hole location: 500 FNL, 175 FEL, sec. 15,  
T. 16 N., R. 90 W., 6th P.M.,  
Carbon County, WY

Detector type: scintillation

Time constant: 4 sec

Collar elevation: 7,770 ft

Source type: Cs-137

Date drilled: Nov. 11, 1977

Source size: 29.16 millicuries

Open-hole diameter: 4 3/4 in.

Source-to-detector spacing: 13 in.

Casing: none

Logging speed: 20 ft/min

Drilling fluids: air and water

Calibration: see log

Depth determined by driller: 320 ft

Logged by: J. Jones

Logged depth: 322 ft

Logger unit: Well Reconnaissance

Water level: 188 ft

Date logged: Nov. 11, 1977
