Figure 14.—Natural gamma log of drill-hole BR-017
Hole location: 2,450 NAW, 150 WNW, sec. 10, T. 46 N., R. 89 W., 5th P.M., Carbon County, WY.
Depth drilled: Nov. 15, 1977
Open-hole diameter: 6 1/2 in.
Casing: 6-in. plastic, 6 ft.
Drilling fluids: air and water
Depth cored/ed by driller: 300 ft
Logged depth: 498 ft
Geological Log
Detector type: scintillation
Time constant: 8 sec
Logging speed: 20 ft/hr
Calibration: one log
Logged by: R. Jones
Logging unit: Well Reconnaissance
Date logged: Nov. 15, 1977
