

Figure 119.--Single-point resistance and spontaneous-potential of drill-hole logs DM-D59A

Hole location: 2,100 FNL, 550 FWL, sec. 35,
T. 16 N., R. 91 W., 6th P.M.,
Carbon County, WY

Logged depth: 600 ft

Water level: 19 ft; gassy

Collar elevation: 6,770 ft

Logging speed: 17 ft/min

Date drilled: July 22-23, 1978

Calibration: unknown; scale setting,
50 ohms and 150 millivolts

Open-hole diameter: 5 1/8 in.

Logged by: L. A. Shoaff

Casing: 6-in. plastic, 0-16 ft

Logger unit: Gearhart-Owen 3200

Drilling fluids: air and water

Date logged: Aug. 9, 1978

Depth determined by driller: 655 ft
