

Base from U. S. Geological Survey
Topographic and Minnesota State, both

EXPLANATION

Location of well and static water level, in feet above
National Geodetic Vertical Datum of 1929

POTENTIOMETRIC CONTOUR LINE -- Shows altitude at which
water level would have stood in tightly cased wells.
Contour interval 50 feet. National Geodetic Vertical
Datum of 1929.

Site of former plant.

SCALE 1:48 000

Figure 2--Generalized potentiometric surface of the Prairie du Chien - Jordan aquifer, January 30 - 31, 1979
