

UNITED STATES DEPARTMENT OF THE INTERIOR
GEOLOGICAL SURVEY

SUMMARIES OF DATA ON AND LISTS OF REFERENCES TO
METALLIC AND SELECTED NONMETALLIC MINERAL OCCURRENCES
IN THE SKAGWAY QUADRANGLE, ALASKA,
SUPPLEMENT TO OPEN-FILE REPORT 78-316

PART B -- LISTS OF REFERENCES TO JANUARY 1, 1980

By
Edward H. Cobb

Open-file Report 81-82B

1981

This report is preliminary and has
not been reviewed for conformity
with U.S. Geological Survey editorial
standards.

Introduction

This report was prepared as a supplement to a 1978 report, part of which summarized data on mineral occurrences in the Skagway quadrangle, Alaska (Cobb, E. H., 1978, Summary of references to mineral occurrences (other than mineral fuels and construction materials) in the Mt. Fairweather and Skagway quadrangles, Alaska: U.S. Geological Survey Open-file Report 78-316, 128 p.). As a result of suggestions from users of the series of which the 1978 report is a part, this supplement is released in two parts; Part A, which presents summaries of data to January 1, 1980, and Part B, which consists of reference lists for each occurrence.

In Part A data from reports released between the cut-off date (November 1, 1977) for the original report and January 1, 1980 have been incorporated in rewritten or new summaries where appropriate; if there are no new data on a deposit the original summary is repeated. For each deposit the name, list of mineral commodities, and location data are in the same format as is the 1978 report. Also included is an updated list of synonyms, owner, operator, and claim names.

In Part B citations are in standard bibliographic format with the exception that references to reports and maps in numbered publication series also show, in parentheses, an abbreviation for the report or map series and the number of the report or map. Abbreviations used are:

- AOF Alaska Division of Geological and Geophysical Surveys
Open-file Report
- B U.S. Geological Survey Bulletin
- C U.S. Geological Survey Circular
- GC Alaska Division of Geological and Geophysical Surveys
and predecessor agencies Geochemical Report
- IC U.S. Bureau of Mines Information Circular
- OF U.S. Geological Survey Open-file Report
- MF U.S. Geological Survey Miscellaneous Field Studies Map
- P U.S. Geological Survey Professional Paper
- RI U.S. Bureau of Mines Report of Investigations

Citations to the principal references used in preparing the summaries in Part A are preceded by an asterisk.

Because the form of citation used in the reference list for each deposit constitutes sufficient identification of each numbered report or map to allow it to be found easily in most libraries, the general reference list in this report consists only of reports without formal identifying numbers. Numbers given to Geological Survey Open-file Reports listed with complete titles are informal and are used mainly in the Branch of Alaskan Geology of the Geological Survey.
