NOTE: Spot depths above 55° N are based on trackline data from the U.S. Geological Survey 1976 geophysical cruise of the S.P. Lee (IS-76-88).

This report is preliminary and has not been reviewed for conformity with U.S. Geological Survey editorial standards.

EQUAL-AREA BASE MAP OF THE BERING SEA Plate 2: Southern Bering Shelf

ALBERS EQUAL-AREA PROJECTION
SCALE 1:1,000,000

by
David R. Jones and James M. Morley
1981

Albers conic equal-area projection based on standard parallels 55° and 65° N. Onshore and offshore contour interval 500 meters with a 200 meter contour added offshore. Spot depths in meters.
