

CURRENT EXPLORATION AND DEVELOPMENT / PRODUCTION

U.S. Department of the Interior
Geological Survey
Gulf of Mexico Summary Report

- Plan of exploration
- Plan of development/
production

5.—Current exploration and development/production

Plate 5 shows the distribution of leased areas where exploration, development, and production are occurring or planned. Compilations from raw data obtained from the USGS Exploration Division Gulf of Mexico OCS Operations Office. The map is based on initial supplemental plans of exploration and initial supplemental plans of development/production received by the USGS office in New Iberia, Louisiana, between January 1, 1980, and June 30, 1981.
