EXPLANATION

- 34272  
● 24.05 Observation well and number. Prefixes Q, N, and S for Queens, Nassau, and Suffolk Counties, respectively are not shown. Lower number is altitude of potentiometric surface, in feet above or below (-) NGVD of 1929.
- 10 — Potentiometric-surface contour. Solid where approximately known; dashed where inferred. Contour interval 10 feet. Hachures indicate depressions. NGVD of 1929.
- — — Inferred limit of the Magothy aquifer.
