

Figure 1.—U. S. Atlantic margin aeromagnetic survey nominal flightlines. The aeromagnetic survey was divided into blocks 1 through 17. The CC blocks were flown by Aero Service in 1966. During map compilation LKB divided the survey into areas I, II, and III. The lines we deleted from block 3 have been removed from this map.

Figure 5. Aeromagnetic anomaly map of the U. S. Atlantic continental margin (contour interval 50nT)
