

This map is preliminary and has not been reviewed for conformity with U.S. Geological Survey editorial standards and stratigraphic nomenclature. Any use of trade names is for descriptive purposes only and does not imply endorsement by the USGS.

SHEET 2 OF 2

SOURCES OF DATA

- Anderson, L. W., and Miller, S. C., 1979, Quaternary fault map of 1981; Negro In., Long Beach, California, 35pp. Faults shown range in age from Holocene to suspected Quaternary.
- Anderson, L. W., Molnar, A. R., and Silliman, T. P., U.S. Bureau of Reclamation, written comm., 1981.
- Anderson, R. E., and Buckman, S. C., 1975, Map of fault scarps in unconsolidated sediments, Hinesfield 1° by 2° quadrangle, Utah; U.S. Geological Survey Open-File Report 79-1036.
- Anderson, R. E., written comm., 1982.
- Burrows, R. E., Map showing Quaternary faults in the Elko 1° by 2° quadrangle Nevada, written comm., 1982.
- Hall, J. W., 1981, Quaternary fault map of the Reno 1° by 2° quadrangle, Nevada; U.S. Geological Survey Open-File Report 81-082.
- Brogan, C. E., and Carr, W. J., Death Valley-Furnace Creek fault zone, written comm., 1981. Regional designation of faults are complex and are summarized as Quaternary faults by W. J. Carr, written comm., 1981; faults labeled as Late Quaternary are from Howard and others, 1978 (31).
- Burrows, R. E., 1977, Map of suspected fault scarps on unconsolidated deposits, Nevada, 1° by 2° quadrangle, Nevada; U.S. Geological Survey Open-File Report 77-499.
- Burrows, R. E., and Anderson, R. E., 1979, Map of fault scarps on unconsolidated sediments, Delta 1° by 2° quadrangle, Utah; U.S. Geological Survey Open-File Report 79-365; used for faults in the House Range.
- Burrows, R. E., written comm., 1982 and Summary of Technical Reports, v. VIII, National Earthquake Hazard Reduction Program, June, 1979; U.S. Geological Survey, Figure 14, used for ages of faults in House Valley, Utah.
- Geologic reconnaissance map, Kallitima Flat area, Mineral County, Nevada, written comm., 1981.
- Carr, W. J., Map of Quaternary faulting in the Nevada Test Site area, written comm., 1981.
- Clark, M. R., and Young, J. C., 1981, Surface faulting along the Hilton Creek fault associated with the Mammoth Lake, California, northwestern Moj., 1980; U.S. Geological Survey Miscellaneous Field Studies Map MF-1394.
- Colman, S. M., 1982, Map showing late Quaternary tectonic features in Colorado; U.S. Geological Survey Miscellaneous Geologic Investigation Map, I-100, in press.
- Cox, E. F., and Van Raman, R. E., 1981, Oral and written comm., 1981. Assigned suspected Quaternary age (Q1) to a segment of the Sierra Fault.
- Crowe, A. J., written comm., 1982. Extended the Bear Lake Valley fault northward and assigned a Holocene age to its entire length; see Williams, J. S. and others, 1979.
- Erney, D. H., and Gibbons, A. R., written comm., 1981. Faults were mapped adjacent to the Humboldt and Humboldt ranges in the Humboldt Range, Nevada, and Logan 30' by 60' quadrangles. Based on Slippy (oral comm., 1981), their certain or almost certain fault category is placed in our Quaternary classification whereas their certain active and possible active fault is placed as a suspected Quaternary fault.
- Dodge, R. L., and Cross, L. T., 1980, Detailed and geologic evolution of the Black Rock fault, northeastern Nevada; in Anderson, R. E., Spill, A., Smith, R. E., Burrows, R. E., Anderson, L. W., and Molnar, A. R., eds., Proceedings of the 1980 Symposium on the Sierra Nevada frontal fault zone; U.S. Geological Survey Open-File Report 80-501, p. 181-208 and Dodge, R. L., written comm., 1982.
- Dodge, R. L., Buckman, S. C., and Burrows, R. E., 1982, Map of fault scarps on unconsolidated sediments, Tropic 1° by 2° degree quadrangle, Utah; U.S. Geological Survey Open-File Report, (82-) in press.
- Dodge, R. L., written comm., 1982. Faults do not offset Lake Bonneville shoreline, therefore a late Quaternary age is assigned.
- Dobson, J. C., 1981, Late Cenozoic fault map of the Walker Lake 1° by 2° quadrangle, California and Nevada; U.S. Geological Survey Miscellaneous Field Studies Map MF-1092.
- Duffield, W. A., and Boon, C. R., 1981, Geologic map of the Coon volcanic field and adjacent areas, Inyo County, California; U.S. Geological Survey Miscellaneous Geologic Investigation Map, I-1000; used to assign Holocene age to faults south of Owen Lake and west of Baker Reservoir which were shown as Quaternary on Jennings 1975 map (32).
- Erney, D. H., written comm., as used for Oregon in Howard, K. A. and others, 1978 (31).
- Grass, L. T., written comm., 1979. New data and reclassification of ages for faults north of Pyramid Lake, Nevada.
- Grass, L. T., 1981, Basin, S. M., Roberts, C. T., Trapp, E. J., and Thompson, M. T., Southeastern Cascade geothermal project, northeastern California: Final Report to U.S. Geological Survey on Grant #16-08-001-Cr-024.
- Hodell, C. W., 1980, Late Quaternary faulting in eastern San Bernardino County, California; San Jose State University, California, unpublished Masters thesis, 119p.
- Hill, M. R., Jr., Map showing post-Eocene and younger faults in the Basin and Range area of south-central Utah and southwest Missouri, written comm., 1981.
- Hill, R. L., Robinson, J. C., Traylor, J. A., McMillin, J. R., Givens, J. W., Shel, J. R., 1980, Geologic study of the Humboldt Valley geothermal basin of March 19, 1979; California Geology, v. 33, no. 3, p. 46-67.
- Henry, C. E., 1979, Geologic setting and geochronology of thermal water and geothermal assessment, Trans-Pecos Texas; Bureau of Economic Geology Report of Investigation 86, and written comm., 1981.
- Herd, D. G., and Molnar, A. R., 1982, Map of surface faulting in the Sonoran northwestern of 1981; U.S. Geological Survey Miscellaneous Field Studies Map MF-1092.
- Howard, K. A., Amos, J. R., Smith, R. E., Erney, D. H., Givens, J. W., Hill, M. R., Jr., Miller, D. J., Mumblerger, W. R., Molnar, A. R., Plafker, George, Frowell, D. C., Wallace, R. E., and Winkler, I. J., 1978, Preliminary map of young faults in the United States as a guide to possible fault activity; U.S. Geological Survey Miscellaneous Field Studies Map MF-1092; used for faults ages in California and historic faults in Baja California.
- Jennings, C. W., 1975, Fault map of California with location of volcanoes, thermal springs, and geologic wells, 1:750,000; California Division of Mines and Geology; used for fault traces California.
- Machette, M. R., unpublished map of Arroyo, Bator, Albuquerque, Socorro, Tulaca, Roswell, Law, Pecos, Silver City, Curstead 1° by 2° quadrangle (New Mexico), and El Paso and Van Horn 1° by 2° quadrangles (Texas).
- Matti, J. C., and Buchbinder, R. W., 1982, Geologic map of the Las Vegas 2M quadrangle; Nevada Bureau of Mines and Geology Open-File Report 82-6.
- Matti, J. C., and Morrison, D. M., 1982, Geologic map of the Las Vegas 2M quadrangle; Nevada Bureau of Mines and Geology Open-File Reports 82-4 and 82-5.
- Miller, D. M., and Lush, A. P., 1981, Geologic map of the Pilot Peak and adjacent quadrangles, Elko County, Nevada and Box Elder County, Utah; U.S. Geological Survey Open-File Report 81-656, and oral comm., 1982.
- Murriano, R. S., 1969, Photostereographic mapping from space photographs of Quaternary geomorphic features and soil associations in northern Chihuahua, Mexico and adjoining New Mexico and Texas, in Cordoba, D. A., Wengert, S. A., and Chapman, J. G., eds., Mexico, Mexico and the United States; New Mexico Geological Society Guidebook, 20th Field Conference, 1966, and written comm., 1981.
- Morrison, D. M., written comm., 1981, used for additional fault traces to supplement Anderson and Miller, 1978 (1).
- Murriano, R. S., Wengert, C. M., and Lush, A. P., 1981, Young fault map of Arizona; Contract report for the U.S. Geological Survey #14-05-001-1926; faults and ages modified by Wengert, C.M., written comm., 1981.
- Mumblerger, W. R., written comm., 1981, concerning faults near Jackson, Wyoming and in the Upper Arkansas valley, Colorado.
- Osborn, D. A., written comm., 1981, concerning faults near Jackson, Wyoming and in the Upper Arkansas valley, Colorado.

# INDEX TO QUATERNARY FAULT MAPS OF THE BASIN AND RANGE AND RIO GRANDE RIFT PROVINCES, WESTERN UNITED STATES

COMPILED BY  
JOHN K. NAKATA, CARL M. WENTWORTH, AND MICHAEL N. MACHETTE  
1982

ACKNOWLEDGMENTS  
We would like to express our gratitude to the contributors who furnished information for this map. In addition, a special thanks to our colleagues Robert Wallace and Michael Jones for their interest and helpful comments in this compilation.  
We would like to elicit comments, invite all updates and new sources for a 1983-84 revision.
