

UNITED STATES DEPARTMENT OF THE INTERIOR  
GEOLOGICAL SURVEY

Slides showing a preliminary geologic map of the Dillon 1° x 2°  
quadrangle, Montana and Idaho

By

E. T. Ruppel, J. M. O'Neill, and David Lopez

Open-File Report 82-667

This report is preliminary and has not been reviewed for conformity  
with U.S. Geological Survey editorial standards and  
stratigraphic nomenclature.

1982

## DISCUSSION

This open-file report consists of two colored 35-mm photographic slides. Slide 1 is a photograph of a hand-colored copy of the geologic map of the Dillon 1' x 2' quadrangle. Scale of original: 1:250,000. Slide 2 is a brief explanation of the map units shown on slide 1.
