

SAUDI ARABIA SHOT POINT 1 RECORD SECTIONS  
SOUTHWEST END

U.S. GEOLOGICAL SURVEY - 1981

Plate 1a. True amplitude (normalized for shot size) observed record section for shot point 1, southwest to southeast. Reduction velocity is 2 km/sec. Distance factor constant for station southwest of shot point 1.5 (-170 km), 1.5 (-170 km) southwest of shot point 1.5 (-170 km). See text.

Plate 1b. Normalized observed record section for shot point 1, southwest to southeast. Reduction velocity is 6 km/sec.

This report is preliminary and has not been reviewed for conformity with U.S. Geological Survey editorial standards.
