

SAUDI ARABIA SHOT POINT 6 RECORD SECTIONS
SOUTHWEST END

U.S. GEOLOGICAL SURVEY - 1981

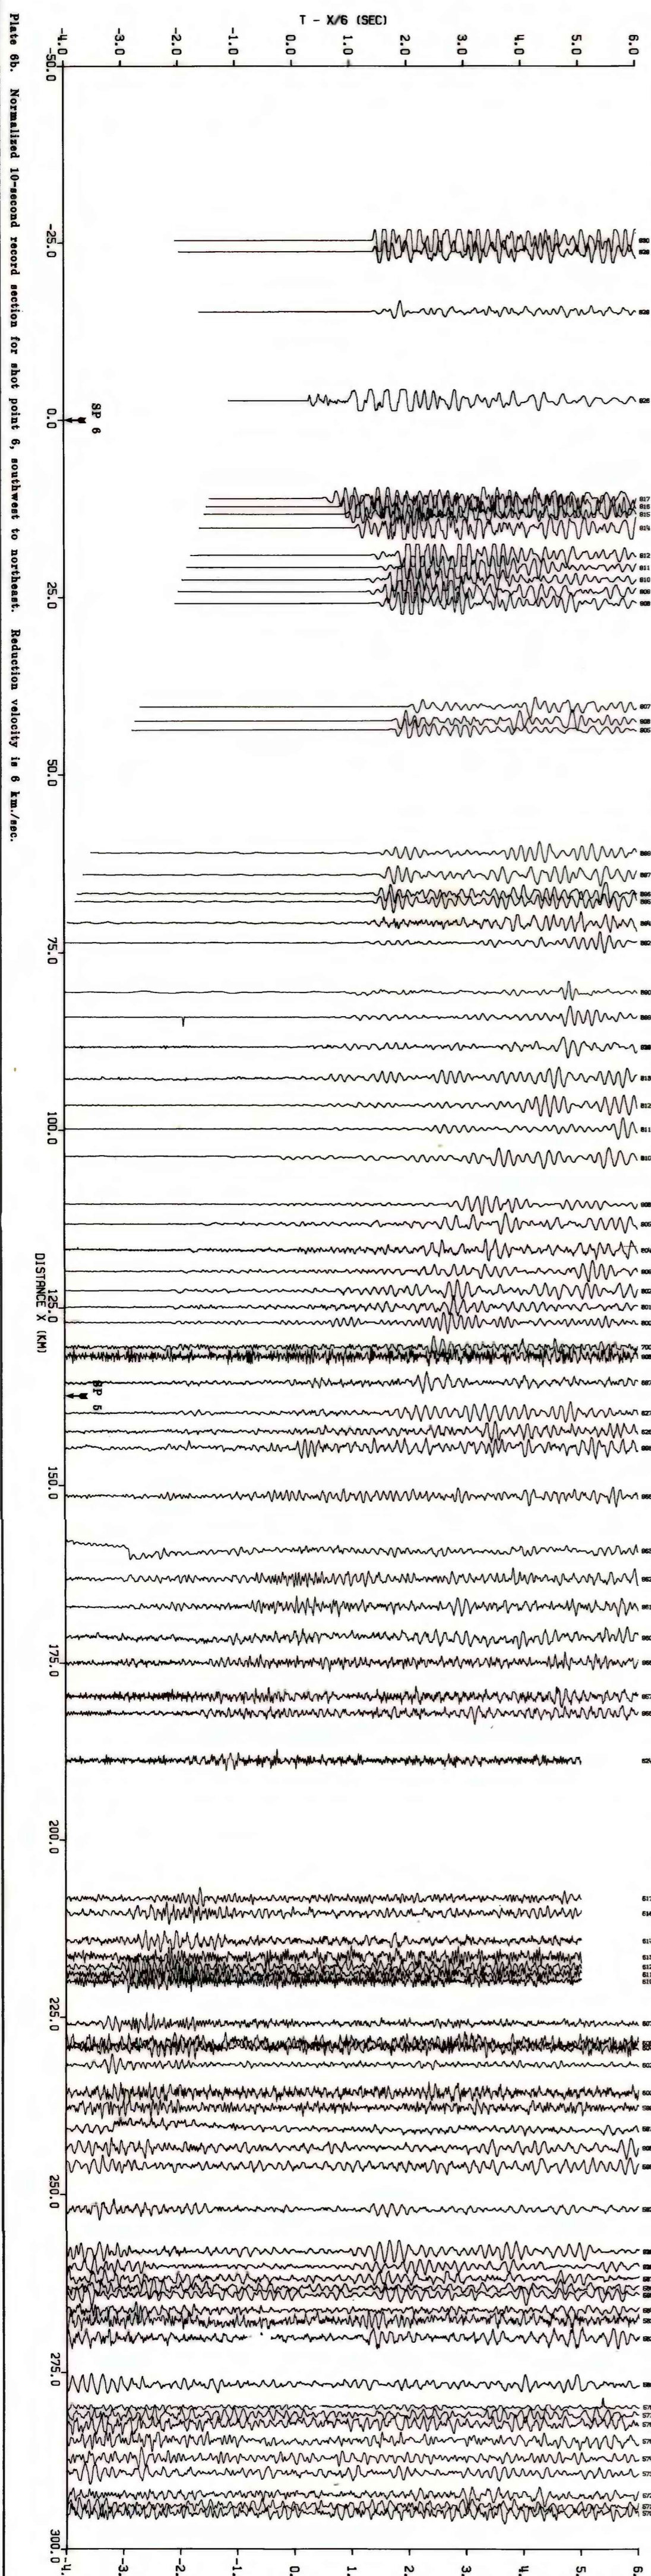

Plate 6b. Normalized 10-second record section for shot point 6, southwest to northeast. Reduction velocity is 6 km./sec.

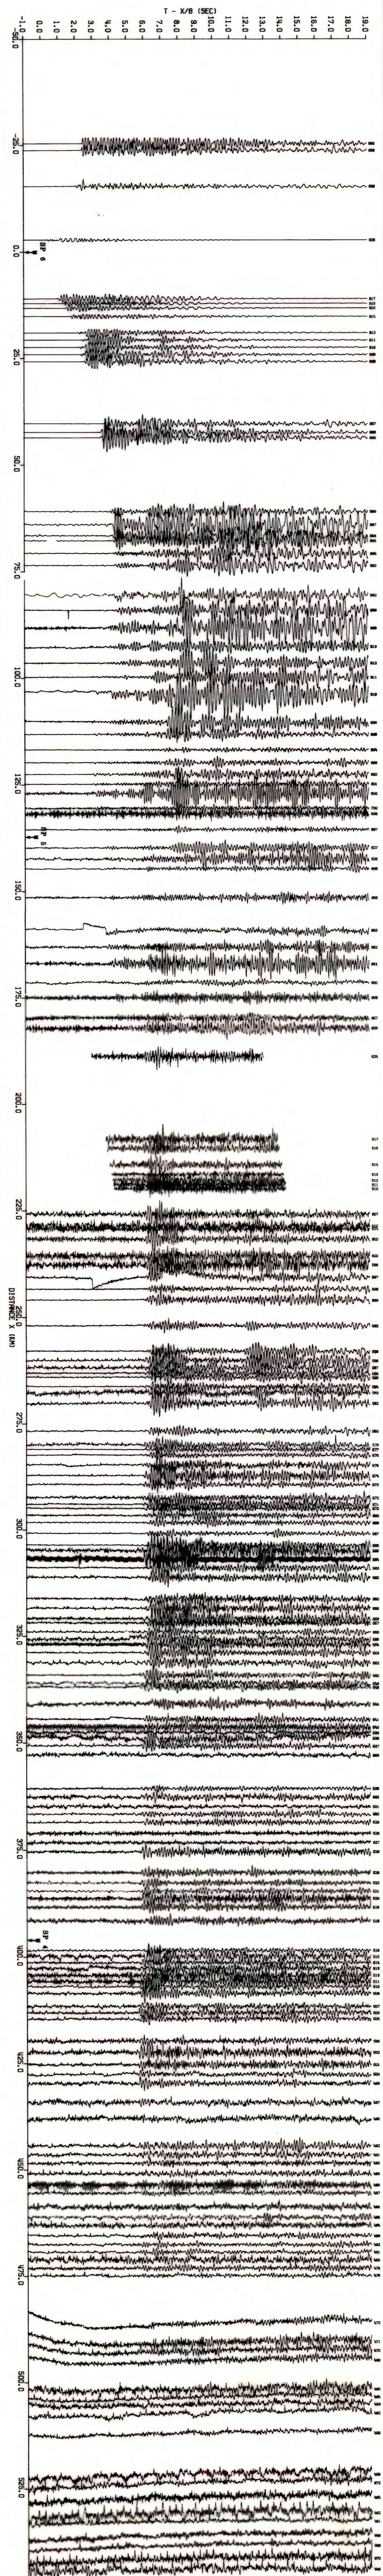

Plate 6a. True amplitudes (normalized for shot size) 20-second record section for shot point 6, southwest to northeast. Reduction velocity is 8 km./sec. Distance factor exponent for points southwest of shot point: 2.0 (-170 km.); northeast of shot point: 2.0 (-170 km.). See text.
