INTRODUCTION

This report is an update of Open-File Report 80-1252 and is written in conjunction with Open-File Report 83-578. This report includes a list of bibliographic citations found on pages 2-19 and an index map showing post-1930 geologic maps published by the United States Geological Survey at scales 1:96,000 to 1:250,000 (through Oct 1982).

Each area outlined on the index map is indicated by a number, which is keyed to the list of bibliographic citations published for that area. Geophysical maps have been excluded.
