Figure 6 - Stratigraphic and hydrologic section, D-D'.

EXPLANATION

- **STRATIGRAPHIC BOUNDARY** - Solid line (pre-Pleistocene) and dotted line (Post-Pleistocene)
- **HYDROLOGIC BOUNDARY** - Improved confined system (Pleistocene)
- **confined by** - Red or purple shading
- **Mostly Sand Saturation with Water** - Containing less than about 3000 milligrams per liter of dissolved solids. Carried from arid region.

Scale:
- Vertical - 1000 ft (300 m)
- Horizontal - 10 mi (16 km)
