Geological Application of Well Logs

A Selected Bibliography of Well Logging Literature

Published Through June 30, 1985

by

Stephen E. Prensky<sup>1</sup>

Open-File Report 85-441

This report is preliminary and has not been reviewed for conformity with U.S. Geological Survey editorial standards and stratigraphic nomenclature

<sup>1</sup> Box 25046, MS 971, Denver, CO, 80225

1985

## TABLE OF CONTENTS

TOPIC	PAGE
Table of Contents.....	I
Introduction.....	III
1. Fundamentals of Well Logging and Well Log Interpretation	
I. General Sources.....	1
II. Crossplots.....	5
III. Special Situations and Conditions Affecting Tool Response.....	6
IV. Cased Hole Logging.....	7
V. Acoustic Logging.....	8
VI. Nuclear Logging.....	11
VII. Shaly Sands.....	12
VIII. Permeability from Logs.....	13
IX. Reprint Volumes.....	14
X. Bibliographies.....	15
XI. Log Response Charts.....	16
2. Geological Applications: General.....	17
3. Determinations of Facies and Depositional Environment.....	21
4. Facies Analysis and Case Studies.....	23
5. Identification of Depositional Environments by SP Pattern.....	24
6. Dipmeter Applications.....	26
7. Automated Lithofacies Analysis and Computer Applications.....	28
8. Natural Gamma-ray Spectrometry.....	31
9. Organic Carbon and Source Rock Determination.....	33
10. Tight (Low-Permeability) Gas Sands.....	35
11. Abnormal Pressure Detection.....	38
12. Oil and Gas Shales.....	40
13. Heavy Oil and Tar Sands.....	42
14. Coal and Coalbed Methane.....	44
15. Fracture Detection.....	47
16. Gas Hydrates.....	51
17. Evaporites.....	53
18. Borehole Gravimeter.....	55

TOPIC	PAGE
19. Mineral Evaluation Including Uranium.....	57
20. Ground Water Applications.....	61
21. Igneous and Metamorphic Rocks.....	62
22. Geothermal and Geopressure.....	64

# GEOLOGICAL APPLICATION OF WELL LOGS:

## A SELECTED BIBLIOGRAPHY

Stephen E. Prensky

This bibliography was prepared to provide a basic and introductory resource for geologists who may be unfamiliar with well logging procedures, analysis, interpretation and application. Consequently, this bibliography is neither an exhaustive nor a comprehensive listing of well logging publications and only papers published in English have been included. This report emphasizes work published since 1975, with particular stress on texts and review articles which summarize earlier work. For those who may need or be interested in a more advanced discussion of particular topics, the lists of references in many of the papers cited here should offer a starting point.

## 1. FUNDAMENTALS OF WELL LOGGING AND WELL LOG INTERPRETATION

### 1. GENERAL

- Asquith, G.B., 1985, Handbook of log evaluation techniques for carbonate reservoirs: Tulsa, American Association of Petroleum Geologists, Methods in Exploration No. 5, 47 p.
- Asquith, G.B. and Gibson, C.R., 1982, Basic well log analysis for geologists: Tulsa, American Association of Petroleum Geologists, Methods in Exploration Series, 216 p.
- Bateman, R.M., 1984, Log quality control: Boston, IHRDC Press, 398 p.
- \_\_\_\_\_, 1984, Cased-hole log analysis and reservoir performance monitoring: Boston, IHRDC Press, 380 p.
- Brock, J., 1984, Analyzing your logs, volume 2 (advanced open hole log interpretation): Petro-media, Inc., 186 p.
- \_\_\_\_\_, 1984, Analyzing your logs, volume 1 (fundamentals of open hole log interpretation): Petro-Media, Inc., 270 p.
- Canadian Well Logging Society (CWLS):  
Journal  
Well Logging Symposium Transactions - biannual
- Chapman, R.E., 1983, Petroleum geology: New York, Elsevier, Chapter 6, p. 107-137.
- Conaway, J.G., 1983, Digital filtering of geophysical logs in A.A. Fitch, ed., Developments in geophysical methods--5: London, Applied Science Publishers, p. 65-105.
- Dewan, J.T., 1983, Essentials of modern open-hole log interpretation: Tulsa, PennWell Books, 361 p.
- de Witte, L., 1972, Formation evaluation, in G.V. Chilingar, R.W. Mannon, H.R. Rieke, III, eds., Oil and gas production from carbonate rocks: New York, Elsevier, Chapter 4, 143-215.
- Dresser Atlas, 1984, Well logging and interpretation techniques, the home study course: Houston, Dresser Industries, publication 9333, variously paginated.

- \_\_\_\_\_, 1984, Wireline services catalog: Houston, Dresser Atlas Industries, publication 9102, 62 p. A brief discussion with illustrations of the various logging devices and processing services currently available
- Ellis, D. and Boucay, J., 1983, The future development of logging techniques: Oil and Enterprise, n. 2, September, p. 60-66.
- Fertl, W.H., 1983, Advances in well logging and well interpretation, *In* Proceedings of the 11th world petroleum congress, v. 3: New York, John Wiley, p. 341-354. Later published in condensed form in 1984, Oil and Gas Journal, v. 82(16), April 16, p. 85-91.
- Finklea, E.E., 1981, Advanced logging techniques, *In* Workshop proceedings: world oil and natural gas supplies, June 1979: Electric Power Research Institute, WS-79-182, Paper 3-11, 23 p.
- Gilreath, J.A., 1977, Dipmeter, *In* L.W. LeRoy, D.O. LeRoy and J.W. Raese, eds., Subsurface geology, 4th ed.: Golden, CO., Colorado School of Mines, part 3, chapter 22, p. 389-396.

- O'Brian, W.J., Brown, S.L. and Sanyal, S.K., 1982, Crossplot technique for the analysis of the carbon/oxygen log, In Proceedings California regional meeting: Dallas, Society of Petroleum Engineers, SPE-10740, p. 243-266.

### III. SPECIAL SITUATIONS AND CONDITIONS AFFECTING TOOL RESPONSE

- Clavier, C., Helm, A. and Scala, C., 1976, Influence of pyrite on resistivity and other logging measurements, In 17th annual logging symposium transactions, paper HH: Houston, Society of Professional Well Log Analysts, 33 p.
- Cooley, B.B., 1974, The delta tension curve for better log quality, In 15th annual logging symposium transactions, paper F: Houston, Society of Professional Well Log Analysts, 9 p. Later reprinted in 1974, The Log Analyst, v. 15(4), July-August, p. 8-13.
- Cox, J.W. and Raymer, L.L., 1976, The effect of potassium-salt muds on gamma ray, and spontaneous potential measurements, In 17th annual logging symposium transactions, paper I: Houston, Society of Professional Well Log Analysts, , 20 p.
- Crues, J.V., Jr., 1982, Recognizing large SP anomalies in the Cretaceous carbonates along the Balcones systems and how to interpret them: Bulletin of the South Texas Geological Society, v. 23(4), December, p. 16-27.
- Fertl, W.H., 1979, Interpretive well logging concepts assist south Texas formation evaluation problems: Transactions of the Gulf Coast Association of Geological Societies, v. 29, p. 64-73.
- \_\_\_\_\_, 1978, How subsurface temperature affects formation evaluation: Oil and Gas Journal, v. 76(30), July 24, p. 54-62.
- Fertl, W.H., King, E.E. and Kumar., R., 1978, Important SP and gamma ray log anomalies explained: Oil and Gas Journal, v. 76(34), August 21, p. 70-75.
- Fertl, W.H. and Hammack, G.W., 1976, Solid particle penetration into porous reservoir rocks and its effect on well log analysis, In 17th annual logging symposium transactions, paper F: Houston, Society of Professional Well Log Analysts, 10 p.
- Hammack, G.W. and Fertl, W.H., 1974, Anomalies observed on well logs, In 15th annual logging symposium transactions, paper V: Houston, Society of Professional Well Log Analysts, 21 p. Also published in 1974, World Oil, v. 179(7), p. 69-73.
- Jordan, J.R. and Campbell, F.L., 1984, Well logging I--Rock properties, borehole environment, mud and temperature logging: Dallas, Society of Petroleum Engineers, Monograph Series 9, 167 p.

- Kowalski, J.J. and Asekun, S.O., 1979, It may not be shale, in 20th annual logging symposium transactions, paper P: Houston, Society of Professional Well Log Analysts, 15 p.
- McGlothlin, R.E. and Krause, H., 1980, Water base drilling fluids, in Proceedings of research on environmental fate and effects of drilling fluids and cuttings symposium, volume 1: U.S. Department of Energy, Report DOE/CONF-800172, p. 30-37. A concise description of the composition and uses of commonly used water-based drilling muds.
- McMordie, W.C. Jr., 1980, Oil base drilling fluids, in Proceedings of research on environmental fate and effects of drilling fluids and cuttings symposium, volume 1: U.S. Department of Energy, Report DOE/CONF-800172, p. 38-42. A concise description of the composition and uses of oil-based drilling muds.
- Moore, C.V. and Kaufman, R.L., 1981, Your unsuspected problems: Fluid resistivity and water analysis, in 22nd annual logging symposium transactions, paper C: Houston, Society of Professional Well Log Analysts, 15 p.
- Suau, J. and Spurlin, J., 1982, Interpretation of micaceous sandstones in the North Sea, in 23rd annual logging symposium transactions, paper G: Houston, Society of Professional Well Log Analysts, 32 p.
- Williams, H. and Dunlap, H.E., 1984, Short term variations in drilling fluid parameters; their measurement and implications: The Log Analyst, v. 25(5), September-October, p. 3.

#### IV. CASED HOLE LOGGING

- Connolly, E.T., 1970, Interpretation and recognition of calibration and recording abnormalities on production logs: Canadian Well Logging Society Journal, v. 3(1), December, p. 89-122.
- Dresser Atlas, 1984, Wireline services catalog: Houston, Dresser Industries, publication 9102, 43 p. A brief discussion with illustrations of the various logging devices and processing services currently available.
- \_\_\_\_\_, 1983, Neutron Lifetime Log Interpretation: Houston, Dresser Industries, publication 3319, 73 p.
- \_\_\_\_\_, 1981, Interpretive methods for production well logs: Houston, Dresser Industries, publication 9441, 113 p.

- Elkins, L.F., 1978, Evaluation in Determination of residual oil saturation: Oklahoma City, Interstate Oil Compact Commission, chapter 8, p. 177-261.
- Fertl, W.H., 1982, Well logging and its applications in cased holes, in Proceedings of the International petroleum conference, Beijing: Dallas, Society of Petroleum Engineers, SPE-10034, p. 541-561. Later published in 1984, Journal of Petroleum Technology, v. 36(2), p. 249-266.
- Fertl, W.H. and Wichmann, P.A., 1977, Exploration for and evaluation of hydrocarbon resources in cased boreholes, in Fifth European logging symposium transactions, paper 25: Paris, Society of Professional Well Log Analysts, Paris Chapter (SAID), 17 p.
- Jones, R.L., 1982, Bootstrapping your way into TDT analysis: The Log Analyst, v. 23(4), July-August, p. 3-13.
- McKinley, R.M., 1982, Production logging, in Proceedings of the International petroleum exhibition and technical symposium, Beijing: Society of Petroleum Engineers, SPE-10035, p. 563-594.
- Schlumberger, 1983, Production services catalog: New York, Schlumberger Ltd., 60 p. A brief discussion with illustrations of the various logging devices and processing services currently available.
- \_\_\_\_\_, 1975, Cased hole applications: New York, Schlumberger Ltd., 123 p.
- Wyman, R.E., 1978, Logging methods in Determination of residual oil saturation: Oklahoma City, Interstate Oil Compact Commission, chapter 5, p. 89-116.

## V. ACOUSTIC LOGGING

- Acoustic Logging, 1978: Houston, Society of Professional Well Log Analysts Reprint Volume. Contains papers on tool development, operation and application.
- Baker, L.J., 1984, The effect of the invaded zone on full wavetrain acoustic logging: Geophysics, v. 49(6), p. 796-809. An important discussion on the depth of investigation of acoustic logging tools.
- Blakeman, E.R., 1982, A case study of the effect of shale alteration on sonic transit times, in 23rd annual logging symposium transactions, paper 11: Houston, Society of Professional Well Log Analysts, 14 p. Discusses the effects of invasion on the sonic log.

- Botter, B.J., 1982, Circumferential acoustic waves in boreholes for the delineation of vertical fractures, In 23rd annual logging symposium transactions, paper S: Houston, Society of Professional Well Log Analysts, 21 p.
- Castagna, J.P. and Gaiser, J.E., 1984, Digital processing improves sonic log reliability: World Oil, v. 198(5), April, p. 71-74.
- Chemali, R, Gianzero, S. and Su, S.M., 1984, The depth of investigation of compressional wave logging for the standard and the long spacing sonde, In 9th international formation evaluation symposium transactions, paper 13: Paris, Society of Professional Well Log Analysts, Paris Chapter (SAID), 10 p.
- Hartley, K.B., 1981, Factors affecting sandstone acoustic compressional velocities and an examination of empirical correlations between velocities and porosities, In 22nd annual logging symposium transactions, paper PP: Houston, Society of Professional Well Log Analysts, 20 p.
- Hoard, R.E., 1983, Sonic waveform logging: A new way to obtain subsurface geologic information, In 24th annual logging symposium transactions, paper XX: Houston, Society of Professional Well Log Analysts, 16 p. Later published in 1985, Oil and Gas Journal, v. ;83(26), July 1, p. 70-74.
- Hornby, B.E. and Chang, S.K., 1985, A case study of shale and sandstone alteration using a digital sonic tool In 26th annual well logging symposium transactions, paper H: Houston, Society of Professional Well Log Analysts, 10 p.
- Husten, P., 1979, Analysis of sonic wave trains, In 6th European formation evaluation symposium transactions, paper D: London, Society of Professional Well Log Analysts, London Chapter, 15 p.
- Koerperich, E.A., 1979, Shear wave velocities determined from long- and short-spaced borehole acoustic devices: Dallas, Society of Petroleum Engineers, 54th annual meeting (Las Vegas) preprint SPE-8237. Later published in 1980, Society of Petroleum Engineers Journal, v. 20(5), p. 317-326.
- Kowalski, J.J., 1975, Formation strength parameters from well logs, In 16th annual logging symposium transactions, paper N, 19 p. Reprinted in 1978, Acoustic Logging: Houston, Society of Professional Well Log Analysts, Reprint Volume, paper Z, 19 p.

- McCann, D.M. and McCann, C., 1976, The application of borehole acoustic logging techniques in engineering geology, in 4th European formation evaluation symposium transactions, paper N: London, Society of Professional Well Log Analysts, London Chapter, 22 p. Later published in 1977, The Log Analyst, v. 18(3), May-June, p. 30-37.
- Minear, J.W., 1982, Clay models and acoustic velocities: Dallas, Society of Petroleum Engineers, 57th annual meeting (New Orleans) preprint SPE-11031, 11 p.
- Nations, J.F., 1974, Lithology and porosity from acoustic shear and compressional wave transit time relationships, in 15th annual logging symposium transactions, paper Q: Houston, Society of Professional Well Log Analysts, 16 p. Later published in 1975, The Log Analyst, v. 16(6), November-December, p. 3-8. Reprinted in 1978, Acoustic logging: Houston, Society of Professional Well Log Analysts, Reprint Volume, paper Y, 16 p.
