

EXPLANATION MAP F

- Fault, ball on down side; strike inferred
- Upslope (detachment) side of mass movement
- Broken, irregular surface probably caused by creep
- Filled channel in foreset unit
- Inner edge of shelf facet
- Ramp crest
- Ramp foot; toe of surficial layer
- Trackline, Iselin (I) 7-78-2 (1978)
- Trackline, Gilliss (G) 7903-03 (1979)
- Cross-tics indicate hour intervals (numbers keyed to seismic profiles). Large numbers indicate beginnings or ends of numbered profiles.

SCALE 1:250,000
