

Index map of the study area, showing the locations of the samples included in this report. Sample numbers are the same as those in Table 1. Sample numbers 3B, 3K, 3L, 3U, A, 4K, 4B, and T were collected and appear on the map, but were barren of organic matter and are not listed in Table 1.

This report is preliminary and has not been reviewed for conformity with U.S. Geological Survey editorial standards and stratigraphic nomenclature.
