

DEPARTMENT OF THE INTERIOR

U.S. GEOLOGICAL SURVEY

NEW INFORMATION RESOURCES OF THE U.S. GEOLOGICAL
SURVEY LIBRARY SYSTEM.

Open-file Report 86-400-B.

This report is preliminary and has not been reviewed for conformity with the U.S. Geological Survey editorial standards.

1986

NEWS ITEMS

The LS/2000 Integrated Library System, having been tested and evaluated by the Library System staff, has been accepted. Requirements stated in the contract have been met. There is still a small problem with the printers, but the vendor has agreed to substitute a more satisfactory model for them. The Library System is now able to proceed with scheduled enhancements to the system.

In a related development, the Author/Title file in the Public Card Catalog was closed at a ceremony on March 3. Dallas Peck, Bob Hamilton, John Aaron and others participated. All Author/Title searches for items cataloged after March, 1976 should be performed in the LS/2000 online database hereafter. Adjustments in classification and subject heading policies continue. Watch this space for further news.

The Order Unit has a new computer-printed "List of Serials Purchased by the USGS Library." It does not cover serials obtained by exchange and gift. The print-out may be borrowed for reproduction by contacting Margaret Merryman, Acquisitions Librarian, at 648-4398.

As the result of Gramm-Rudmann-Hollings budget cuts, the Library System has had to institute charges for computer and telecommunications cost for searches of commercial information systems (BRS, Dialog, etc.) Exception: bibliographic verifications involving no more than 3 citations will not be charged. The requestor must provide an authorized project number. There is no charge for the time of the research librarian or technical information specialist who works on the project. The Library System staff is experimenting with microcomputer interfaces with the databases in order to reduce costs even further.

The Library System is participating in the USGS Bangladesh Project, a joint endeavor with the Geological Survey of Bangladesh (G.S.B.). Gertrude Sinnott researched both cultural materials about the country and information about work in the earth sciences there. The results are being made available to the project team. The Library System will also provide consulting assistance to the GSB library.

A set of "firsts" for the Library System: Staff members did a Library skit for the 1986 Reston Pick and Hammer show, and the Library exhibited at the 1986 biennial conference of the Association of College and Research Libraries. All in one week!

*** If you wish to add to or delete from the mailing list for this publication, please send the name and address information to Bob Reed, Chief Cataloger, USGS Library System, MS 950, National Center, Reston, Virginia 22092. Remember that after the third (next) issue, return of a coupon or a phone call will be required for continued receipt.

Libraries in the Geological Survey Library System are located in the Eastern, Central, and Western Regions. Personnel whose duty station is other than Reston, Denver, Menlo Park or Flagstaff, may borrow items by completing an Accessions List Loan Request form and mailing it to the Survey Library in their Region if the item is available there or to the nearest Survey Library holding the item if it is not. Personnel whose duty station is Reston, Denver, Menlo Park or Flagstaff should continue to request items as they are accustomed to doing.

If a Library is unable to fill a request immediately because its copy of the item is charged out or otherwise unavailable for loan, the request will be forwarded to any Survey Library which may be able to supply a copy. If no copy is available for immediate loan, the requester's name will be placed on a waiting list and the publication dispatched as soon as it becomes available. Publications with a waiting list are loaned for two weeks only; those without are loaned for thirty days. If there is no waiting list, the loan period may be extended by contacting the lending library prior to the expiration of the loan period and requesting a renewal.

In filling out the Loan Request form, it is essential that requesters include their (1) Division/Office/Branch affiliation, (2) complete mailing address, and (3) phone numbers, both commercial and FTS. Typing or printing such information will help avoid unnecessary delays in processing requests. Loan Request forms will be found at the end of each List; they should be duplicated if additional copies are required. A separate form should be used for each item requested.

Questions regarding entries in the List or the information to be supplied on the Loan Request form should be referred to the Library located in the same Region as the requester's duty station.

Eastern Region

Reston Library
(703) 860-6671

FTS 928-6671

Central Region

Denver Library
(303) 234-4133

FTS 234-4133

Western Region

Menlo Park Library
(415) 323-8111,
ext. 2207

FTS 467-2207

Flagstaff Library
(602) 527-7008

FTS 765-7008

Suggestions and comments about this service are welcome and should be sent to:

Chief Cataloger
U.S. Geological Survey Library
950 National Center
Reston, Virginia 22092

Additional explanation beyond that provided by the preceding examples seems appropriate.

Each entry consists of the following components which always appear in the order given: (1) Principal subject heading, always capitalized; (2) Main entry, which may be a personal author, corporate author, or title; (3) Title (if the main entry is either a personal or corporate author); (4) Imprint; (5) USGS call no., always located in the lower left and the last component in each entry.

The call number on catalog cards normally consists of two or more lines of a combination of letters and numbers, arranged in the following manner:

G(253)
F46
v.37
no.4
D,MP

In the Accessions List the same number appears in a straight line. There are no spaces to show where the call no. lines are broken on the catalog cards: G(253)F46v.37no.4D,MP

Call numbers prefixed with "M" indicate item is part of the map collection.

Call numbers prefixed with "R" indicate item is part of the Library's Reference collection. These items normally do not circulate.

Capital letter suffixes denoting which libraries (D = Denver, MP = Menlo Park, and F = Flagstaff), other than Reston, hold a particular item, follow the call no. and are set off from it by a space. Please note that no letter suffix is employed for Reston, which should be understood to hold the item unless otherwise indicated. In the call no. above, the Reston, Denver, and Menlo Park libraries each have this item.

If a library, other than Reston, is the sole holder of an item, the suffix statement will reflect that fact; for example: F only.

Occasionally an item will not be assigned a call no., receiving instead an alpha abbreviation, such as PAM = pamphlet or MICRO = microform. In such entries, that designation occupies the space normally set aside for the call no. When completing the Loan Request form, alpha abbreviations should be recorded on the call no. line.

The above is a photocopy of a main entry card which is representative of the format arrangement appearing on cards filed in the Reston, Denver, Menlo Park and Flagstaff Library catalogs.

Appropriate information is selected and reformatted to produce subject-arranged entries similar to the following.

TO: Recipients of the USGS Library New Information Resources Lists

Because of the many changes and the reorganization of various Divisions and Offices within the Geological Survey, please notify the Library at the address listed below of any address changes to be made and also any changes in the number of NIR Lists that are needed by your office.

Thank you.

WATER QUALITY--COLORADO--SOUTH PLATTE RIVER.

Spahr, Norman E. Effects of wastewater effluent on the South Platte River from Littleton to Denver. Denver, Colo. : U.S. Geological Survey, 1985.
(200) WRi no.85-4124 D MP

WATER QUALITY--INDIANA.

Wilber, William G. Effects of land use and surficial geology on flow and water quality of streams in the coal-mining region of southwestern Indiana, October 1979 through September 1980. Indianapolis, Ind. : U.S. Geological Survey, 1985.
(200) WRi no.85-4234 D MP

WATER QUALITY MANAGEMENT--ILLINOIS--PERIODICALS.

Water Survey currents. Champaign, Ill. : The Survey, 1985-
S(253) Un33w

WATER QUALITY MANAGEMENT--UNITED STATES--FINANCE.

Lake, Elizabeth E. Who pays for clean water? The distribution of water pollution control costs. Boulder, Colo. : Westview Press, 1979.
797(200) L148w

WATER QUALITY--NEW MEXICO.

Zehner, Harold H. Hydrology and water-quality monitoring considerations, Jackpile uranium mine, northwestern New Mexico. Albuquerque, N.M. : U.S. Geological Survey, 1985.
(200) WRi no.85-4226 D MP

WATER QUALITY--OHIO--LAKE HOPE REGION.

Nichols, Vance E. Evaluation of the effects of coal-mine reclamation on water quality in Big Four Hollow near Lake Hope, southeastern Ohio. Columbus, Ohio : U.S. Geological Survey, 1985.
(200) WRi no.85-4197 D MP

WATER QUALITY--OKLAHOMA--BLUE CREEK WATERSHED.

Kurklin, Joanne K. Water quality in the Blue Creek arm of Lake Eufaula and Blue Creek, Oklahoma, March-October 1978. Oklahoma City, Okla. : U.S. Geological Survey, 1985.
(200) WRi no.85-4039 D MP

WATER QUALITY--OREGON--BULL RUN RIVER WATERSHED.

Clifton, Daphne G. Analysis of biological data collected in the Bull Run Watershed, Portland, Oregon, 1978 to 1983. Portland, Or. : U.S. Geological Survey, 1985.
(200) WRi no.85-4245 D MP

WATER RESOURCES DEVELOPMENT--HAWAII--WAILUA RIVER WATERSHED.

Belt, Collins and Associates. Waialeale hydropower study. Honolulu :
The Division, 1978.
780 (950) qH3lr no.[R59]

WATER RESOURCES DEVELOPMENT--INDIANA--PERIODICALS.

U.S. Geological Survey activities in Indiana. Indianapolis: The District.
(200) WR3iu

WATER RESOURCES DEVELOPMENT--NEW MEXICO--CONGRESSES.

New Mexico Water Conference (10th : 1965 : New Mexico State University).
Theme : people and water in river basin development : proceedings of the
tenth annual New Mexico Water Conference, April 1 & 2, 1965, New Mexico
State University. University Park, N.M. : The University, [1965]
780 (272) qN465n no.10

New Mexico Water Conference (23rd : 1978 : New Mexico State University). New
Mexico's water resources, considering the possible : proceedings of the twenty-
third annual New Mexico Water Conference. Las Cruces, N.M. : New Mexico
Water Resources Research Institute, 1978.
780 (272) qN465n no.23

New Mexico Water Conference : (25th : 1980 : New Mexico State University). A
quarter century of water research : proceedings of the twenty-fifth annual New
Mexico Water Conference, April 24-25, 1980. Las Cruces, N.M. : WRRRI, 1980.
780 (272) qN465n no.25

New Mexico Water Conference (9th : 1964 : New Mexico State University). Theme :
research, the key to the future in water management : ninth annual New Mexico
Water Conference, March 19 & 20, 1964, New Mexico State University.
University Park, N.M. : The University, [1964]
780 (272) qN465n no.9

WATER RESOURCES DEVELOPMENT--NEW MEXICO--LEGISLATION--CONGRESSES.

New Mexico Water Conference (24th : 1979 : New Mexico State University).
The new national water policy : will it work in New Mexico? : Proceedings of
the twenty-fourth annual New Mexico Water Conference. Las Cruces, N.M. :
WRRRI, [1979]
780 (272) qN465n no.24

WATER RESOURCES DEVELOPMENT--PHILIPPINES--AGUS RIVER WATERSHED.

Central Mindanao : Agus River basins. [Quezon City] : The Council, [1983]
P (920) P53r no.24-12C

WATER RESOURCES DEVELOPMENT--PHILIPPINES--CAGAYAN RIVER WATERSHED.

National Water Resources Council (Philippines). Cagayan Valley : Upper
Cagayan River Basin 2. [Quezon City] : The Council, 1980.
P (920) P53r no.24-2D

WATER RESOURCES DEVELOPMENT--PHILIPPINES--MINDANAO RIVER WATERSHED.

Central Mindanao : Mindanao-Allah River basins. [Quezon City] : The
Council, [1983]
P (920) P53r no.24-12B

WATER RESOURCES DEVELOPMENT--PHILIPPINES--PULANGUI RIVER WATERSHED.

Western Mindanao : Pulangui River basins. [Quezon City] : The Council,
[1983]
P (920) P53r no.24-12A

WATER RESOURCES DEVELOPMENT--RESEARCH GRANTS--UNITED STATES.

Geological Survey (U.S.). Branch of Research Grants and Contracts. Water Resources Research Grant Program project descriptions, fiscal year 1985. [Reston, Va.] : U.S. Geological Survey, 1985.
