FIGURES

Figures 1-4. Maps showing location of:

1. White Sands Missile Range and areas of hydrologic observations 2
2. Supply wells, test wells, boreholes, and unused supply wells in the Post Headquarters and adjacent areas 5
3. Wells in the Mockingbird Gap area 6
4. Wells in the Stallion Range Center and NW-30 areas 6

5-8. Hydrographs showing:

5. Water levels in test well T-8 and yearly pumpage from the Post Headquarters well field, 1971-85 7
6. Water levels and specific conductance for period of record available in selected supply wells 9
7. Water levels in test wells T-7, T-8, T-10, and T-11, 1976-85 14
8. Monthly specific conductance, pH, and pumpage for Post Headquarters supply wells 19
