
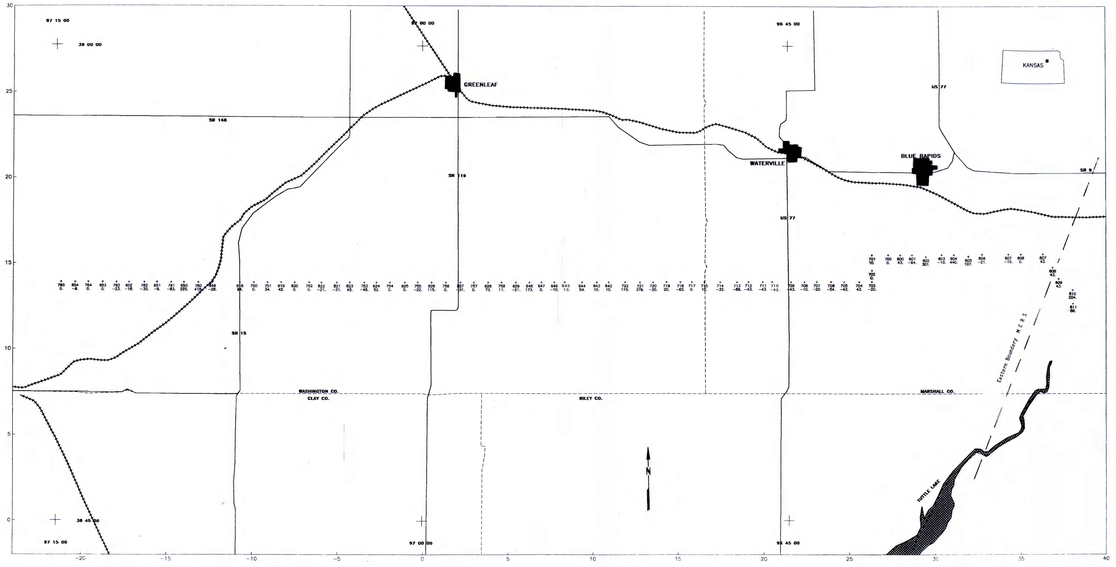
A Hutchinson Traverse, West Area - Helium in soil gas; upper number = sample number, middle number = uncorrected helium data, lower number = corrected helium data. Approximate location of traverse indicated by solid square on inset map.

SCALE 1:125000

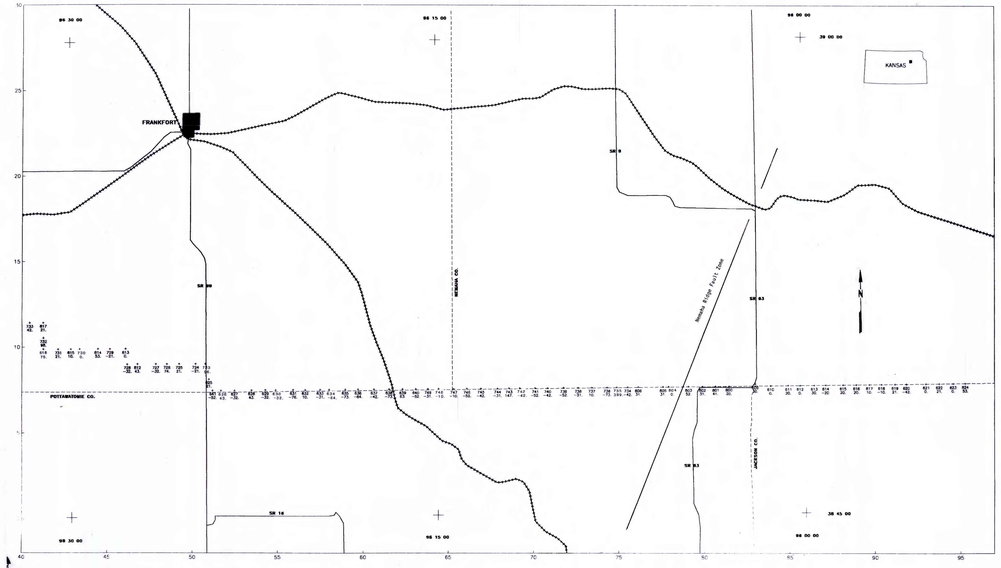
B Hutchinson Traverse, East Area - Helium in soil gas. See A for explanation.

SCALE 1:125000



C Manhattan Traverse, West Area - Helium in soil gas; upper number = sample number, lower number = helium concentration. Approximate location of traverse indicated by solid square on inset map.

SCALE 1:125000



D Manhattan Traverse, East Area - Helium in soil gas. See A for explanation.
