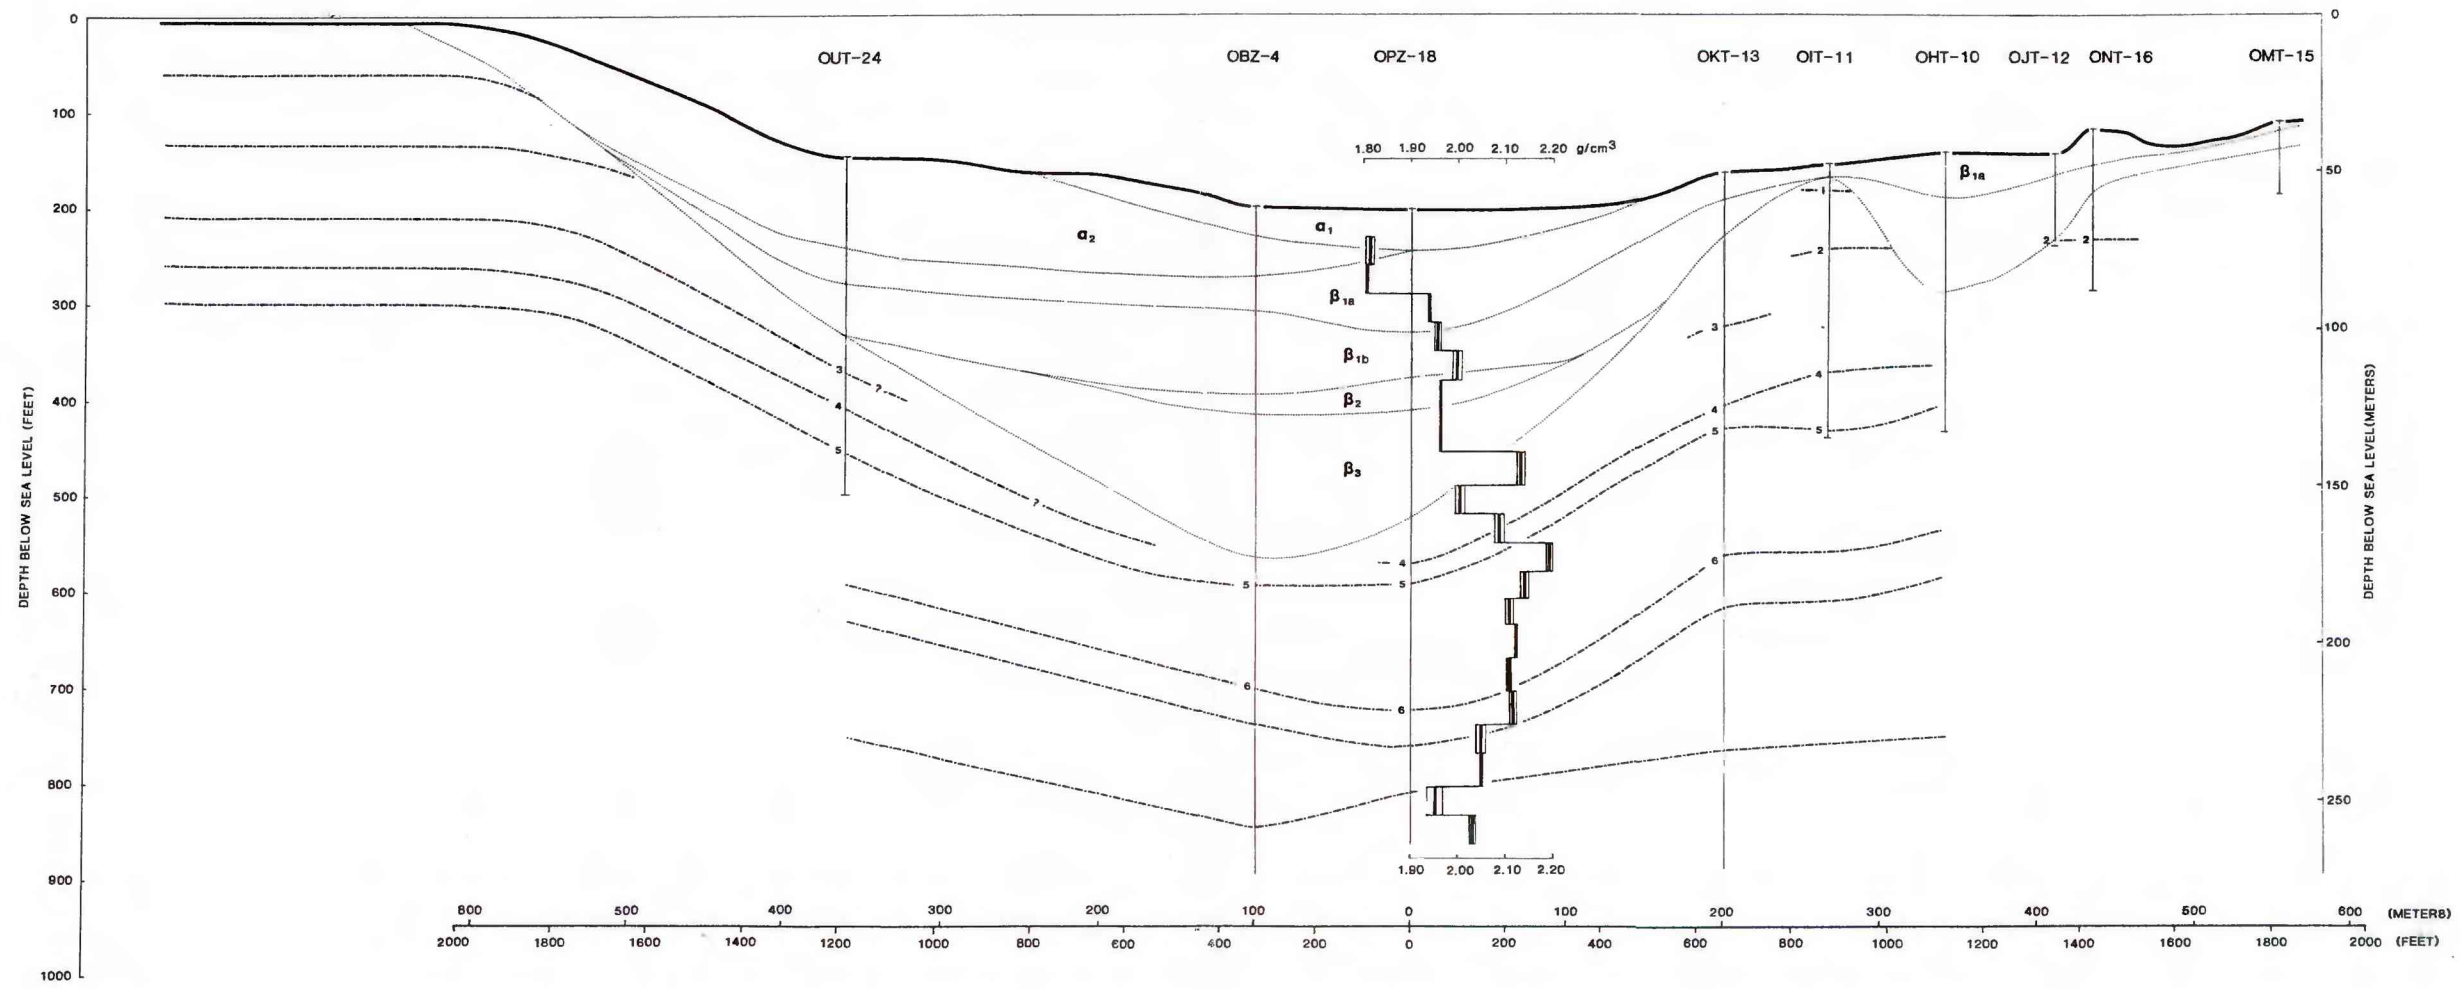

FIGURE 2-6. - Cross section CD extends from west-northwest to east-southeast through OAK crater (fig. 2-2). Data are identical to those described for Figure 2-5. Only the BHG density profile of OPZ-18 lies in this section. Boreholes OJT-12, ONT-16, and OMT-15 are projected into section as shown in Figure 2-2. Vertical exaggeration is 2X.
