THE WATER DATA SOURCES DIRECTORY
OF THE NATIONAL WATER DATA EXCHANGE
SOUTHEASTERN REGION

By Cassandra D. Blackwell

ABSTRACT

The Water Data Sources Directory (WDSD) is a computerized data base maintained by the National Water Data Exchange (NAWDEX). This data base contains information about organizations that are sources of water data as well as those organizations involved in water-related activities. For each organization, information is provided on the types of data or services available, locations from which the data or services may be obtained, the media in which the data are available, the areas in which data have been collected, and alternate sources of the organization's data. To date, over 2,000 organizations have been registered in the Directory. Because of its size and the need to provide its users with the most current information available, the Directory is published in five volumes. The first four volumes comprise the four geographical regions of the Water Resources Division within the U.S. Geological Survey. These regions are the Northeastern, Southeastern, Central, and Western Regions. Two U.S. territories, Puerto Rico and the Virgin Islands, are listed in the Southeastern region. The U.S. territory of Guam is listed in the Western region. The fifth volume contains the foreign organizations registered in the Directory.

This report contains the organizations which are registered in the Southeastern region of the Water Data Sources Directory.

INTRODUCTION

Water and water-related data are collected and made available by hundreds of organizations throughout the United States and in other countries. Hundreds of additional organizations are involved in environmental and water-resource studies and evaluations, hydrologic research, environmental regulatory activities, water-resource management and regulation, water-resource assessments, and other activities that have an impact on the water-resources community. A computerized Water Data Sources Directory is maintained by the National Water Data Exchange (NAWDEX) to serve as a national focal point for the storage and dissemination of information about these organizations.

The Water Data Sources Directory currently contains information about more than 2,000 organizations and is continually being updated. Information contained in the Directory is frequently amended as water-data acquisitions activities change, office addresses or telephone numbers are added, deleted, or changed, and as other general information about an organization changes or becomes available. Because of its size and the need to provide its users with the most current information available, the Directory is published in five volumes. The first four volumes comprise the four geographical regions of the Water Resources Division within the U.S. Geological Survey. These regions are the Northeastern, Southeastern, Central, and Western Regions. Two U.S. territories, Puerto Rico and the Virgin Islands, are listed in the Southeastern region. The U.S. territory of Guam is listed in the Western region. The fifth volume contains the foreign organizations registered in the Directory.

This report contains the Southeastern region which includes, Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, Puerto Rico, South Carolina, Tennessee and the Virgin Islands. Each states listing also includes the Federal information registered in the Directory.

ACKNOWLEDGMENTS

Special thanks is made to the more than 2,000 organizations that responded to requests for information by either questionnaire or phone. Although efforts were made to provide the most accurate information and to include all organizations whose interests are involved in water and water-related data, this directory cannot be considered a complete listing. Organizations which would like to be included in this directory should refer to the address listed on page 11.

Special recognition is extended to Wayne Green, USGS-WRD-NAWDEX, for his contribution in the development of the program in dBase IV^{1/} to produce the Water Data Sources Directory in a published report.

1/The use of trade or products names is for identification only and does not imply endorsement by the U.S. Geological Survey.

DESCRIPTION OF THE WATER DATA SOURCES DIRECTORY

The Water Data Sources Directory is a computerized data base that stores diverse information about water-oriented organizations. The data base stores the following categories of information about each organization.

- (1) The identification of the organization and a brief description of its water oriented activities.
- (2) The locations within the organizations from which data may be obtained or in which water-related activities are being conducted, comments about the activities of the offices, and information about the geographic area for which the office stores data.
- (3) The number of sites for which the major categories of data (surface-water quantity, surface-water quality, ground-water quality, ground-water levels, and ground-water pumpage) are available, and the geographic location of these data.
- (4) The identification and addresses of other organizations that are alternate sources of an organization's data.
- (5) A summary of the organization's data that have been indexed by NAWDEX.
- (6) Information about water-related data available from the organization. Water-related data are defined as any data having pertinence to water-resource activities. This includes, water-use, land-use, geographic, geologic, meteorological, climatic, soils, census and demographic, and many other categories of data.

DESCRIPTION OF THE DIRECTORY OUTPUT

Four types of directories may be produced from the computerized data base:

- (1) Water Data Sources which contains information only about organizations that are sources of water data or provide services or information products pertinent to water-data activities.
- (2) Water-Related Data Sources which contains information only about organizations that are sources of water-related data or provide services or information products relevant to water-related data.
- (3) Water and Water-Related Data Sources which combines the information defined in items 1 and 2, above, into a single volume.

(4) Water Resource Organizations which provides information about all organizations registered in the data base.

This last type includes planning agencies, research organizations and others that may be active in the field of water resources but may only be users of water and water-related data rather than sources.

Directories may be produced from the data base by regions in printed copy upon request. Figure 1 presents the format of the information that is printed from the Directory for each organization. A dash (-) throughout the form indicates that the organization may or may not have data for that specific area and that the information was not provided to us upon our updating the Directory.

The information is divided into nine major sections. Each section is indicated by a circled number on the left side of the figure. The circled numbers are not printed as a part of the Directory, but are shown in the figure for reference with the itemized descriptions of the information presented:

1. Organization Identification.--This section always exists. It contains the name of the organization, the identification code assigned to the organization by NAWDEX, and codes which describe the type of organization and its major program orientation (see app., A). It also identifies whether or not the organization is a member of NAWDEX.

2. Water Data Available.--This section contains the number of sites for which the organization has water data available in selected categories. A separate line is printed for each State, territory, or country for which the organization has data available. Numbers followed by asterisks in this section do not necessarily reflect the total number of sites for which the organization has data available, but instead, indicate the number of sites indexed in the Master Water Data Index. These are the only sites which the organization wishes to report. This section exists only for those organizations that are sources of water data.

3. Water-Related Data Available.--This section contains information about the types of water-related data available from the organizations, the number of sites at which each type of data are collected, the number of observations (when applicable) of each type of data, the areal coverage of the data, the frequency of collection or measurement of the data, and the media in which the data are stored. Some columns of this section may be blank or valued as zero. In these cases, the volumes, area, frequency, or storage media of the data have not been quantified. The data identified are, however, available. This section exists only for those organizations that are sources of water-related data.

NATIONAL WATER DATA EXCHANGE WATER DATA SOURCES DIRECTORY

1	NAME OF ORGANIZATION	ORGANI- ZATION CODE	TYPE OF ORGANI- ZATION	TYPE OF ORIEN- TATION	NAWDEX MEMBER
	NO NAME WATER AGENCY	VA999	0	—	YES

THE ABOVE OFFICE HAS DATA AVAILABLE FOR THE FOLLOWING GEOGRAPHIC AREAS:

7	STATE, TERRITORY, COUNTRY	COUNTIES
	VIRGINIA	003 013 059 067 121 171 199

DATA AVAILABLE FROM THIS ORGANIZATION ARE ALSO AVAILABLE FROM THE FOLLOWING OTHER SOURCES:

8	ORGANI- ZATION CODE	NAME OF ORGANIZATION	ALTERNATE PREFERENCE	DATA AVAILABLE	STORAGE MEDIA
	USGS	CHIEF, USER SERVICES UNIT NATIONAL WATER DATA EXCHANGE USGS, 421 NATIONAL CENTER RESTON, VA 22092	A	SQLD	D

9	COMMENTS:
---	-----------

NAWDEX HAS LIMITED ACCESS TO THE DATA FILES OF THE AGENCY.

Figure 1. Example of the Directory output.

4. Office Locations.--This section always exists. It may be repeated as many times as necessary to identify all offices within the organization from which data, services, or information may be obtained. It contains an identification code assigned to the office by NAWDEX; the point of contact, name, address, and telephone number of the office; a specification as to whether the office responds to public requests for data; and codes identifying the storage media and areal coverage of data available from the office (see app., A).

5. NAWDEX Assistance Centers.--This section exists only if the office identified directly above in the listing serves as a NAWDEX Assistance Center. It contains the Center's telephone number, office hours, and the time zone in which it operates. Offices identified as NAWDEX Assistance Centers may be contacted to obtain assistance in identifying and acquiring water data identified as being available within the Directory, as well as other services available from NAWDEX.

6. Office Comments.--This section is optional. It may contain any comments the organization, or the office identified directly above in the listing, may wish to make available, such as fee schedules, services, mission and programs, or any other information considered pertinent to users of the Directory.

7. Geographic Areas.--This section is optional. It lists each state, territory, or country for which data are available from the office identified directly above, and optionally lists the counties (see app., B) within each state for which data are available.

8. Alternate Sources.--This section is optional and may be repeated as many times as necessary to identify other organizations and their offices that are alternate sources of the organization's data. It contains the identification codes assigned to the alternate source organization by NAWDEX; the point of contact, name and address of the office within the alternate source organization from which data may be obtained; a code identifying whether the office identified is an alternate or a preferred source; and codes (see app., A) identifying the types of data available from the office and the media in which the data are available. If an office is identified as an alternate source (ALT/PRF = A), it may be contacted to obtain the organization's data. If the office is identified as a preferred source (ALT/PRF = P), the office should be contacted instead of the source organization to obtain the data.

9. Other Source Comments.--This section is optional. It may contain any comments the organization may wish to make about the data, services, fee schedules, or other information pertinent to obtaining its data from the alternate source office identified immediately above.

INDEXES TO THE DIRECTORY

Four indexes are produced as a part of the Directory to facilitate the location of desired information within the Directory.

1. Figure 2 is an example of the index of organizations registered in the Directory in which they are listed in alphabetical order by the name of the organization. The index contains the name of each organization, the identification code of each organization, and the page within the Directory on which the organization may be found. This information always exist.

3. Figure 3 is an example of the geographic index that summarizes the types of water data collected and their source organizations. For each state, territory, or country referenced in the Directory, the organization codes are listed for all organizations having data for any or all of the major categories of data shown in section 2 of figure 1. This index exists only if water-resources or water-data source organizations are retrieved as part of the Directory produced.

4. Figure 4 is an example of the index that summarizes the types of water-related data available and their source organizations. This index exists only if water-resource or water-related data source organizations are retrieved as part of the Directory produced.

INFORMATION CODES

When an organization is registered in the Directory, most of the information is presented in the form of codes to maximize the amount of information presented. These codes may be translated using the following appendixes.

Appendix A contains the information codes and their meaning for the the type of organization, type of orientation, storage media, areal coverage, and types of data available.

Appendix B contains the codes and names of all counties identified in the Directory.

HOW TO OBTAIN COPIES OF THE DIRECTORY

Printed copies of the Directory available in five volumes are published as an open-file report and may be obtained by submitting a request to:

National Water Data Exchange
U.S. Geological Survey
421 National Center
Reston, VA 22092

Telephone: (703) 648-6848
FTS 959-6848

OTHER INFORMATION AVAILABLE

Most of the data reported in the Directory as being available has been indexed by NAWDEX. Numerical summaries and listings of the stations for which these data are available can also be obtained upon request to NAWDEX at the address given above or any NAWDEX Assistance Center identified in the Directory.

DIRECTORY REGISTRATION

Organizations who would like to become registered in the Directory may do so by contacting the National Water Data Exchange at the same address given above for obtaining copies of the Directory. A complete set of instructions and encoding forms will be provided for this purpose.

NATIONAL WATER DATA EXCHANGE
WATER DATA SOURCES DIRECTORY

INFORMATION CODES AND THEIR MEANING

Type of Organization

C - County
F - Federal
G - Intergovernmental compact or commission
I - International
L - Local Governmental other than County or Municipal
M - Municipal
O - Other (None of the above)
P - Private
S - State, Provincial or Territorial
U - University

Areal Coverage

A - Multicounty/Multidivision
C - One County/Sudvision
I - International
M - Multistate/Multiprovince
N - Nationwide
S - Statewide/Provincewide

Storage Media

C - Computerized form (Machine-readable)
D - Computerized and Published
E - Computerized and Microform
F - Computerized, Published, and Microform
G - Microform and Published
M - Microform
P - Published

Type of Orientation

A - Agriculture and Irrigation
B - Basic Hydrologic Research
D - Domestic, Rural
E - Evaluation of Resources
F - Flood Control
H - Hydroelectric
I - Industry
M - Multiple Source Public Supply
N - Navigation
O - Other
P - Pollution Studies
R - Recreation
S - Single Sourve Public Supply
T - Thermoelectric
W - Fish and Wildlife

Data Available From Other Source Organizations

D - Sites with Geologic Descriptions Available
G - Grpimd-Water Quality
L - Ground-Water Level
P - Ground-Water Pumpage
Q - Surface-Water Quantity
S - Surface- Water Quality

ALT/PRF:

- A - The organization identified is an alternate source of the source organization's data.
- P - The organization identified is a preferred source of the source organization's data and should be contacted for data in lieu of the source organization.

Appendix A

Data Frequency

- A - Annual (Once per year)
- B - Other, periodic (Less often than once per year)
- C - Continuous, Year-round (nonrecorder)
- D - Continuous, Seasonal (nonrecorder)
- E - Eliminated Activity
- I - Continuous, Year-round (recorder Instrument)
- J - Continuous, Seasonal, (Recorder Instrument)
- M - Monthly, Year-round
- N - Monthly, Seasonal
- O - Daily, Year-round
- P - Daily, Seasonal
- Q - Quarterly, Year-round
- R - Quarterly, Seasonal
- S - Semiannual (Twice per year)
- U - Unique (one-time) measurement
- W - Weekly, Year-round
- X - Weekly, Seasonal
- Y - Seasonal (no time period specified)
- Z - Data collected at an irregular or unspecified frequency

APPENDIX B—Continued

ALASKA BOROUGH AND CENSUS CODES

The official political units of Alaska (State Code 02) are called boroughs. There are eleven organized boroughs and an unorganized borough which includes all remaining territory. The organized boroughs cover only a small percentage of the land area of the State. Because the unorganized borough is too large to provide a basis for suitable statistical analysis, the Bureau of the Census, in conjunction with the State of Alaska, has established census areas in the unorganized borough in order to provide a more effective basis for statistical purposes.

CODE	NAME (BOROUGH OR CENSUS AREA)		
010	ALEUTIAN ISLANDS	150*	KODIAK ISLAND
020*	ANCHORAGE	170*	MATANUSKA-SUSITNA
050	BETHEL	180	NOME
060*	BRISTOL BAY	185*	NORTH SLOPE
070	DILLINGHAM	201	PRINCE OF WALES-OUTER KETCHIKAN
090*	FAIRBANKS NORTH STAR	220*	SITKA
100*	HAINES	231	SKAGWAY-YAKUTAT-ANGOON
110*	JUNEAU	240	SOUTHEAST FAIRBANKS
122*	KENAI PENINSULA	261	VALDEZ-CORDOVA
130*	KETCHIKAN GATEWAY	270	WADE HAMPTON
140	KOBUK	280	WRANGELL-PETERSBURG
		290	YUKON-KOYUKUK

*Indicates name of an organized borough. Other names are of census areas within the unorganized borough.
